May 22, 2007

DMAP has just received notice that a major information systems disruption within US Bank will result in an unforeseen delay in the posting of State Treasury financial transactions.

This could impact our electronic funds transfers and check processes that are normally scheduled to take place today, May 22, 2007.

All efforts are being made to restore these systems to allow these delayed transactions to process as quickly as possible.

Further information, as it is made available, will be forthcoming. Thank you for your patience and understanding during this unanticipated delay.
