

Evaluator of the Month

Listed below are evaluators honored as "**Evaluator of the Month**" since 2001.

Evaluators are selected to respond to employee suggestions because of their knowledge of the subject matter addressed. The role of the evaluator is critical to the success of the Program. Agencies depend on the evaluator's expertise to determine whether a suggestion will benefit their organization, and the implementation costs, if any, necessary to gain those benefits. At each Commission meeting, members choose the evaluator who stands out for the most thorough, fair, positive, and/or timely evaluation of a suggestion.
