

Forest Use and Occupation

Access (S) – 1.3

Season	Type of Access	Cross-Country Travel	Road and Trail Travel <sup>1</sup>
Snow Free Season	Pedestrian Horse/Pack Stock Mtn Bike/Mechanized	Yes Yes Yes	Yes Yes Yes
Snow free Season	Motorized, <50" wide Motorized, >50" wide OROMTRD <sup>3</sup>	No <sup>2</sup> No <sup>2</sup> N/A	Yes <sup>2</sup> No <sup>2</sup> 0.0 mi/sq. mi. <sup>2</sup>
Snow Seasons <sup>4</sup>	Winter Nonmotorized Snowmachine	Yes Yes	Yes Yes

<sup>1</sup> Individual roads and trails are designated open or closed in the Forest Plan Travel Maps.

<sup>2</sup> Motorized use and OROMTRD is controlled as follows:  
 Idaho portion of Winegar Hole: Motorized use will be managed according to direction in adjacent Management Prescription 2.6.5.

Lionhead: Close to all motorized vehicles, except open to snowmachines beginning Thanksgiving Day.

Italian Peak: Open to two-wheeled motorized vehicles only on designated routes, and snowmachines anywhere. *Allowed OROMTRD is 0.4 mi/sq.mi.; changed in the Travel Plan #2 Amendment, 10/15/99.*

Palisades: The Idaho portion is open to snowmachines, but closed to all other forms of motorized use. *Allowed OROMTRD is 0.1 mi/sq.mi.; changed in the Travel Plan #2 Amendment, 10/15/99.*

<sup>3</sup> OROMTRD = Open road and open motorized trail route density: includes all open roads and open motorized trails. (See Roads in Glossary for more information.)

<sup>4</sup> Within grizzly bear BMUs, site-specific restrictions on winter recreation activity (such as area closures, timing restrictions, etc.) will be imposed to resolve human-grizzly bear conflicts.

Recreation

1. Developed – Developed, hardened campsites are generally not allowed. (G)
2. Existing heli-skiing operations which do not degrade wilderness values may continue. (G)

**2.1.1 SPECIAL MANAGEMENT AREAS**

**Description**

This management prescription applies to areas with unique cultural, geologic, botanical, or zoological resource values, and sites which are listed or eligible for the National Register of Historic Places.

Vegetation will vary depending on the objectives of each special area. A mix of age class distributions, openings, and horizontal/vertical diversity may be present. In general, vegetation will appear natural in the special management areas; however, exceptions may exist for some areas, and some human-caused vegetation manipulation will occur depending on the objectives of each special area.
