- Why:** Sports and fitness are vital ingredients of VA's National Rehabilitation Special Events. Physical activity and friendly competition engage the mind as well as the body, and recreation therapy fills a special need in the lives of older patients at VA health centers across the country. VA research and clinical experience verify that physical activity is particularly important to the health, recovery and overall quality of life for older people. The National Veterans Golden Age Games encourage VA patients over the age of 55 to make physical activity a central part of their lives, and support VA's comprehensive recreation and rehabilitation therapy programs. It is a national showcase for the preventive and therapeutic value of sports, fitness and recreation in the lives of *all* older Americans. The NVGAG became a qualifier for the National Senior Games, a partner in the U. S. Olympics Committee, in 2004.
