solutions-based contracting for acquisition of information technology.

(b) SOLUTIONS-BASED CONTRACTING DESCRIBED.—For purposes of this section, solutions-based contracting is an acquisition method under which the acquisition objectives are defined by the Federal Government user of the technology to be acquired, a streamlined contractor selection process is used, and industry sources are allowed to provide solutions that attain the objectives effectively.

(c) PROCESS REQUIREMENTS.—The Administrator shall require use of a process with the following aspects for acquisitions under the pilot program:

(1) ACQUISITION PLAN EMPHASIZING DESIRED RESULT.—Preparation of an acquisition plan that defines the functional requirements of the intended users of the information technology to be acquired, identifies the operational improvements to be achieved, and defines the performance measurements to be applied in determining whether the information technology acquired satisfies the defined requirements and attains the identified results.

(2) RESULTS-ORIENTED STATEMENT OF WORK.—Use of a statement of work that is limited to an expression of the end results or performance capabilities desired under the acquisition plan.

(3) SMALL ACQUISITION ORGANIZATION.—Assembly of a small acquisition organization consisting of the following:

sion of offers, and the estimate of the Federal Government's budget for the desired work.

(7) **SIMPLE PROPOSALS.**—Submission of oral presentations and written proposals that are limited in size and scope and contain information on—

(A) the offeror's qualifications to perform the desired work;

(B) past contract performance;

(C) the proposed conceptual approach; and

(D) the costs likely to be associated with the proposed conceptual approach.

(8) **SIMPLE EVALUATION.**—Use of a simplified evaluation process, to be completed within 45 days after receipt of proposals, which consists of the following:

(B) Conduct for 30 to 60 days of a program definition phase (funded, in the case of the source ultimately awarded the contract, by the Federal Government)—

(i) during which the selected source, in consultation with one or more intended users, develops a conceptual system design and technical approach, defines logical phases for the project, and estimates the total cost and the cost for each phase; and

(ii) after which a contract for performance of the work may be awarded to that source on the basis of cost, the responsiveness, reasonableness, and quality of the proposed performance, and a sharing of risk and benefits between the source and the Government.

(C) Conduct of as many successive program definition phases with alternative sources (in the order ranked) as is necessary in order to award a contract in accordance with subparagraph (B).

The Administrator shall notify Congress at least 30 days before the date on which the Administrator withdraws a schedule or portion thereof under this paragraph. The authority under this paragraph may not be delegated.
