# New format available to all Oregon Law Enforcement Agencies who have access to Law Enforcement Data Systems (LEDS).

LEDS now offers a vehicle "**Hot Sheet"** capability that allows users to run a list of vehicles entered as stolen in a county during the past 24 hours. The query may include up to four counties per transaction.

Examples of the query format appear below:

- **Single** county check: VHS.OR0370000.CTY/01

  Message Key

  Your ORI

  CTY = County Code (see list below)

- **Multiple** county check: VHS.OR0370000.CTY/01.02.03.04

  Message Key

  Your ORI

  CTY = County Code (see list below)

Here is an example of an actual VHS transaction using multiple agencies:

```

REUR  0000  LEDS
