# EMERGENCY BOARD STATE GENERAL FUNDS METHAMPHETAMINE ENFORCEMENT PROGRAM

## Request for Proposals

---

### I. Introduction

The Criminal Justice Services Division (CJSD) of the Oregon State Police announces the availability of \$400,000 in one-time only Emergency Funds to be competitively distributed to local law enforcement agencies to support programs to reduce the manufacture and/or distribution of methamphetamine.

The Emergency Board Subcommittee recommended that each community receiving funding establish a set of performance measures and identify best practices that can be shared with other communities facing the same challenges.

### II. State Administering Agency

CJSD provides services to the Oregon criminal justice community through the administration of federal grant programs aimed at reducing drug use and violent crime and improving the effectiveness of the criminal justice system (1).

### III. Intent of this Request for Proposals

The intent of this Request for Proposals is to distribute funds for activities that *enhance* current efforts to disrupt and dismantle clandestine labs and drug trafficking organizations that manufacture and distribute methamphetamine, including precursor trafficking. The intended objectives are to investigate methamphetamine manufacturers and traffickers who produce or sell methamphetamine and methamphetamine precursors; to arrest

and incarcerate methamphetamine manufacturers and traffickers; to remove children from drug endangering environments; and to use state and/or federal law to identify and seize assets related to the sale and distribution of methamphetamine.

### IV. Amount and Duration of Funding

A total of \$400,000 will be competitively distributed during the 2007 fiscal year. CJSD anticipates supporting up to eight awards through this one-time solicitation. Funding is expected to begin July 1, 2007 and end on or before June 30, 2008.

### V. Application Due Date

One original and three copies of the application must be **received (*not postmarked*) by 5:00 PM Friday, June 8, 2007**. Only materials included as part of the application will be considered in the review process. Late applications or additions to an original application will not be accepted. Neither facsimiles nor email submissions will be accepted. The postal mail and hand-delivery address is provided below.

## VI. Eligible Applicants

Applicants eligible under this solicitation include local or tribal law enforcement. A coalition of law enforcement agencies may respond to this award application. However, one lead agency must represent the applicant and must accept responsibility for program and fiscal record keeping and reporting.

In order to receive funding under this solicitation a local law enforcement agency must demonstrate an affiliation with an interagency narcotics team, drug task force, or similar multi-agency collaboration to address community-wide methamphetamine enforcement issues.

Agencies that have not received a *direct* Byrne Memorial Justice Assistance Grant Program (Byrne/JAG) award from the U.S. Department of Justice, Bureau of Justice Assistance (DOJ/BJA), a *direct* Byrne/JAG Program award administered by the Criminal Justice Services Division of the Oregon State Police, and that have not received *direct* HIDTA funds are particularly encouraged to apply.

## VII. Funding Priorities

### A. Rationale

According to 2006 National Drug Threat Survey data, 92.2 percent of law enforcement agencies in the Pacific Region report that methamphetamine is the greatest drug threat in their jurisdictions, a higher percentage than for any other region in the country (2).

The report on *Organized Crime In Oregon* published in August 2006 by the State of Oregon Department of Justice stated that Oregon is experiencing an epidemic of methamphetamine abuse

and trafficking affecting every County in the state (3).

When the availability of locally produced methamphetamine decreased significantly, likely due to Oregon's strict precursor law, the supply of the drug was virtually uninterrupted as drug traffickers almost immediately increased the supply of finished product from labs outside the state and from foreign countries. Oregon HIDTA law enforcement investigators identified a total of 121 drug trafficking organizations (DTOs) operating in Oregon during 2005, as compared with 84 in 2004 (3).

The relationships between illegal drug activities, violent crime, and serious social problems have long been well established. Manufacturing, distributing, and using illegal drugs fuel homicides, assaults, property crimes, domestic violence, child neglect and abuse, prostitution, driving under the influence, homelessness, mental illness, and lost work productivity.

Law enforcement responses alone are seldom effective in reducing or solving the problems associated with methamphetamine. Because methamphetamine production, trafficking, use, and incidental exposure potentially affect so many dimensions of community life, multiagency collaborations are recommended for addressing the community-wide problems that result from methamphetamine (4, 5).

### B. Recommended Approach

Since these are one-time only funds that are limited to a 12-month funding cycle with an average funding level of

\$50,000, the funded activities must have a direct and/or lasting impact on efforts to reduce the illegal manufacture and distribution of methamphetamine.

Funding activities will be limited to:

- Specialized training for narcotics law enforcement personnel;
- Specialized equipment to support investigation and undercover operations;
- Investigative confidential funds;
- Overtime pay for methamphetamine-related investigations, investigative follow-up, and efforts to assist and protect drug-endangered children.

### **VIII. Application Instructions and Requirements**

#### **A. Application Length and Format**

Applications should consist of the Cover Sheet, Proposed Program Narrative, Plan for Assessing Program Implementation and Monitoring Program Performance, and Proposed Program Budget Worksheet and Narrative.

Applications must not exceed ten pages, exclusive of the appendices.

Applications must be submitted on single-sided, 8½ x 11-inch paper, using one-inch margins, and typed double spaced with a standard 12-point font.

#### **B. Application Contents**

##### **1. Cover Sheet**

Identifying information must be provided using the Cover Sheet format in Appendix A. This sheet must be completed in full and placed at the beginning of the proposal.

#### **2. Proposed Program Narrative**

A proposed program narrative must be provided that separately identifies and addresses each of items a through d below:

##### **a. Problem Statement**

The problem statement should include a brief description of the program target area (law enforcement jurisdiction or governmental boundary) and a detailed description of the nature and extent of the clandestine drug lab, drug trafficking organization, methamphetamine distribution, or precursor trafficking problem affecting the target area and the related public safety impact. The problem statement and public safety impact should be substantiated with factual and illustrative local data.

##### **b. Description of Activities**

Write a brief and clear description of the activities proposed for funding. Activities that represent collaborative efforts should be emphasized.

If specialized training is one of the proposed activities, describe the specific type(s) and source(s) of training(s), indicate who will attend the training(s), and how the training will have a direct and lasting impact on the described problem.

If specialized equipment is one of the proposed activities, describe all proposed equipment purchases and how the equipment will be used to directly impact the described problem.

If a confidential fund pool is one of the proposed activities, describe the specific use for these funds and how these funds will effectively impact the described problem.

If overtime pay is one of the activities, describe the specific overtime activities to be funded, the type and number of personnel, and how overtime hours will effectively impact the described problem.

**c. Applicant Previous Experience**

Describe any specific previous experience, the administrative or participatory role played by the applicant, and whether and how involvement of the applicant has had an impact on reducing the manufacture or distribution of methamphetamine in the target area.

**d. Evidence of Collaboration**

Describe the nature and extent of the collaboration with an interagency narcotics team, drug task force, or similar multi-agency coalition to address community-wide methamphetamine enforcement issues. Describe how the proposed activities enhance ongoing methamphetamine enforcement activities or further the local drug control strategy.

An authorized official from each collaborating agency must sign the Cover Sheet of the application indicating support for the proposed activities.

**3. Program Goals, Objectives, and Performance Measures**

Provide qualitative and quantitative information when you identify the goals, objectives, and performance measures. Use the format in Appendix B to present your goals, objectives, and performance measures. The output and outcome examples provided below are provided as examples only. Your specific goals, objectives, and performance measures will depend on your program activities.

- i) Identify the program goals, or what the program is intended to accomplish.
- ii) Identify the objectives, or the specific, measurable changes your agency intends to bring about. Objectives should be realistic, obtainable, and stated in terms of results.
- iii) Identify performance measures, the indicators that determine whether the objective has been met. Performance measures should include both output measures and short-term outcome measures. Each objective should have at least one corresponding output measure and short-term outcome measure.

Output measures address results related to staff activities and may include the number of cases opened, number of search warrants served, number of individuals arrested, number of labs seized, number of weapons seized, value of assets seized, number of submissions to an intelligence database, number of drug-endangered child referrals to appropriate child services agencies, or the number of training workshops/conference attended by law enforcement personnel.

Outcome measures focus on what changes occurred as a result of the program. Short-term outcome measures address the immediate results delivered by your program and may include the number of drug-trafficking organization disrupted or dismantles, number of cases accepted for prosecution, number of forfeiture cases filed, or value of assets forfeited.

#### 4. Plan for Assessing Program Implementation and Monitoring Program Performance

Applicants must describe the plan for assessing the implementation and monitoring the performance of the proposed program. Data and other information gathered through implementation and monitoring should be used for program improvement efforts and for reporting on progress to CJSD during the funding period.

The implementation assessment can be limited to documenting whether the inputs (equipment purchases, training, use of confidential funds, or personnel overtime) that were planned for the program are in place and are being used as intended.

The performance monitoring should be designed to document whether the program is making progress toward achieving its stated goals, as reflected in outputs (such as arrests, seizures, and other program activities) and short-term outcomes (such as cases accepted for prosecution, convictions, and other results of program activities).

For the assessment / monitoring plan, applicants must specify the:

- i) Types of implementation and performance data to be collected.
- ii) Existing and newly planned sources for each type of implementation and performance data.
- iii) Previous experience of the applicant agency in collecting, analyzing, and reporting program data, and the procedures that will be used to report assessment and performance data.

After the awards have been made, CJSD may provide evaluation technical assistance to awardees in order to finalize the details of the implementation and performance monitoring plan.

#### 5. Proposed Program Budget Worksheet and Budget Narrative

A detailed budget must be prepared using the format of the Budget Worksheet provided in Appendix C. The Budget Worksheet must be placed at the beginning of this section of the proposal, and be followed by a Budget Narrative.

Categories and descriptions of expenses included on the Budget Worksheet are as follows:

- Personnel Overtime Salaries – List each position by title, number of overtime hours devoted to the program, hourly overtime rate, and payroll taxes.
- Equipment – Generally, equipment is tangible personal property costing over \$5,000 and having a useful life of more than one year. Specify type, quantity, and unit cost.
- Travel / Training / Conferences – Itemize travel expenses such as conference registration fees, meals (or per diem), lodging, airfare, mileage, tolls, commercial transportation, and parking fees. Make sure travel expenses are documented in sufficient detail (dates/times/receipts/brief description of the purpose of the trip and for how many people). ***Be sure to obtain prior approval for out-of-state travel.***

- Supplies – Generally, supplies are items that have a useful life less than one year. List supplies by type, quantity, and unit cost.
- Contractual / Consultant Services – Provide a brief description of the services to be provided and the hourly/daily rate and estimated time on program. Consultant fees in excess of \$450/day must receive prior approval.
- Administration – Administrative costs may not exceed ten percent of the total award and will be approved on a case-by-case basis. Itemize costs such as accounting, payroll, etc.
- Other Expenses – Itemize expenses that do not readily fit into any of the other budget categories (such as confidential funds).

Eligible expenses under this solicitation include overtime, equipment, supplies related to training or surveillance equipment, contractual support related to training or purchase/maintenance of surveillance equipment, training, and confidential funds that are beyond those currently available to applicants for the purpose of the proposed program.

The Budget Worksheet must show how the cost of each item was calculated and the Budget Narrative must explain the need for each item and how the cost is directly related to the proposed program.

## IX. Application Review and Award Process

### A. Review Process

CJSD will oversee an impartial review of all applications received by 5:00 PM on Friday, June 8, 2007. Each application will initially be examined for responsiveness to the guidelines provided in this Request for Proposals related to timeliness, page length and format, and contents. An application will be deemed non-responsive if it is submitted late, exceeds ten pages, does not conform to the margin and font requirements, or has a missing or incomplete Cover Sheet, Proposed Program Narrative, Program Goals, Objectives, and Performance Measures, Plan for Assessing Program Implementation and Monitoring Program Performance, Proposed Budget Worksheet, and Budget Narrative. Only those applications deemed responsive will be considered for further review.

An impartial panel of experts will assist CJSD in making award recommendations. All applications that are deemed responsive to the guidelines will be scored by CJSD and members of the Review Panel. Applications will be scored based on a maximum of 110 points. The possible maximum score for each application section will be as follows:

- **50 points** – Proposed Program Narrative
  - *15 points* – Problem Statement
  - *15 points* – Description of Activities
  - *5 points* – Applicant Previous Experience
  - *15 points* – Evidence of Collaboration

- **25 points** – Program Goals, Objectives, and Performance Measures
- **10 points** – Plan for Assessing Program Implementation and Monitoring Program Performance
- **15 points** – Proposed Budget Worksheet (5 points) and Budget Narrative (10 points)
- **10 points** – Bonus points for applicants with no *direct* previous Byrne, JAG, or HIDTA funding

After scoring, the geographical distribution of applicants with the highest scores may also be considered in the review process.
