The Farm Security and Rural Investment Act of 2002 (2002 Act) provides authority for marketing assistance loans on peanuts. Commodity Credit Corporation (CCC) will pay storage, handling, and other associated costs for the 2002 through 2006 crops of peanuts that are pledged as loan collateral and stored in a warehouse with an approved Peanut Storage Agreement.

Payment for Warehouse-Stored Loan Charges

The 2002 Act allows CCC to pay for storage, handling, and associated costs to ensure proper storage of peanuts offered as CCC loan collateral for warehouse-stored marketing assistance loans. The base receiving rate of \$30.00 per ton will remain unchanged for the 2005 crop year, as will storage and loadout rates. CCC will:

- Pay \$30.00 per ton receiving charges associated with warehouse-stored loans directly to the warehouse after the loan has been disbursed,
 - Add the per ton initial grading and inspection fee to the base receiving rate, according to the Federal State Inspection Service (FSIS) fee schedule for the applicable State (based on the location of the buying point),
 - Deduct storage charges accrued while under CCC loan from the loan repayment amount, and
- Note:** Warehouse operators must collect storage from producers when peanuts are redeemed from loan.
- Use service rates based on the following table, effective July 1, 2005.

Warehouse Storage Charges for CCC-owned Peanuts
