

National Fish and Wildlife Foundation in conjunction with its partners – the Environmental Protection Agency, the National Oceanic and Atmospheric Administration, U.S. Fish and Wildlife Service, U.S.D.A. Forest Service – announces The Great Lakes Watershed Restoration Program. This is a new program designed to demonstrate real, on-the-ground commitment to improving water quality and ecological health of the Great Lakes Basin. Funding will focus on habitat restoration, water quality improvements, watershed planning and management, applied research, and conservation education. A total of more than \$700,000 will be available for grants ranging from \$35,000 to \$100,000. Please see attached RFP for details. Proposals are due on November 15, 2005.
