Re: Lotronex hearing April 23, 2002

Dear Mr. Perez,

I understand Glaxo Smith Kline is attempting to get Lotronex back on the market.

From my observation of the effect it had on my daughter this is a dangerous drug even when used under controlled circumstances. She was in a research study during which she was hospitalized because of it.

At the April 23 hearing, please keep it off the market. Do not change your Nov. 28, 2000 decision.

Thank you for your consideration of my request.

Sincerely, *Mary Julia C. Royall*
(Mrs. J. D.)
