September 2008

YOU OR SOMEONE YOU KNOW MAY BE ELIGIBLE FOR HELP WITH HOME HEATING AND/OR COOLING BILLS.

THE LOW INCOME HOME ENERGY ASSISTANCE PROGRAM (LIHEAP) MAY BE ABLE TO HELP KEEP YOU AND YOUR FAMILY SAFE AND HEALTHY.

WHAT IS LIHEAP?

LIHEAP is a Federally-funded program that helps low-income households with their home energy bills.

LIHEAP can help you stay warm in the winter and cool in the summer. By doing so, you can reduce the risk of health and safety problems (such as illness, fire, or eviction).

The federal government does not provide energy assistance directly to the public. Instead, LIHEAP operates in the 50 States, the District of Columbia, Indian tribes or tribal organizations, and the U.S. territories.

WHO IS ELIGIBLE TO RECEIVE LIHEAP ASSISTANCE?

The LIHEAP program in your community determines if your household's income qualifies for the program. The LIHEAP program may also require households to meet additional eligibility criteria to receive LIHEAP assistance.*

*NOTE: The availability of LIHEAP assistance is not guaranteed. Often most of the Federal LIHEAP funds are spent during the winter.

WHAT ASSISTANCE DOES LIHEAP PROVIDE?

Your LIHEAP program may be able to offer you one or more of the following types of assistance:

Bill payment assistance

Energy crisis assistance

Weatherization and energy-related home repairs

IF YOU CAN'T AFFORD TO PAY YOUR HOME ENERGY BILL, YOUR HOME MAY NOT BE SAFE, AND YOU MAY BE AT RISK OF SERIOUS ILLNESS OR INJURY.

STAY HEALTHY IN YOUR HOME

Energy assistance is important to all that receive it, but more so if someone in your home is **elderly, disabled or a young child** under 6 years old. These persons are especially at risk for life-threatening illness or death if their home is too cold in the winter or too hot in the summer.

BE SAFE IN YOUR HOME

You can face safety risks if you are unable to pay your home energy bills. Some people resort to unsafe methods to keep their homes warm or cool. These include the use of fireplaces, stoves, improperly vented portable heaters, barbecue grills, or overloading electrical circuits. These methods are not only fire hazards, but also create the risk of carbon monoxide poisoning.

NOTE: To inquire about LIHEAP assistance, the general public should use the **public inquiry telephone number** if available for their State. That number may provide the public with information about the State's program much quicker than the LIHEAP agency number. Further information about a State's LIHEAP program can be obtained from State LIHEAP web sites where available.
