

A National Catholic Social Justice Lobby

801 Pennsylvania Avenue SE ■ Suite 460 ■ Washington DC 20003 ■ (202) 547-5556 ■ FAX (202) 547-5510

**The Honorable John Dingell (D-MI)
U.S. House of Representatives
Washington, D.C. 20515**

Dear Representative Dingell:

NETWORK: A National Catholic Social Justice Lobby supports the Bipartisan Consensus Managed Care Improvement Act of 1999 (HR 2723). Having participated in the lobbying for patient protections over the past two years, NETWORK applauds your efforts and those of Rep. Norwood (R-GA) in facing down the serious opposition from the House GOP Leadership. You have stood firm against this and the other daunting forces mobilized against you. We also commend those who bolstered your efforts.

NETWORK will lobby in support of HR 2723, hoping that the bill will be strengthened in the process. Our membership nationally has already been alerted. But we wish to stress, Representative Dingell, that NETWORK believes that the long journey toward HR 2723, and hopefully its passage, further underscores the need for a national dialogue on health care.

The prolonged debate which began with the President's Commission on Patients' Protections, the subsequent introduction of patients' protection legislation and the militancy and funding of those who championed opposition to strong protections are proof positive of the dangers we face as a nation in the commercialization of health care.

When HMO's/insurance companies and pharmaceuticals begin to shift priorities from the rights of the patient to the success of the stockholder, we have entered a dangerous zone in human rights. The situation calls for a national ethical moral debate on what constitutes an authentic health care system.

NETWORK affirms the tenet of Catholic social teaching and the U.N. Declaration of Human Rights that health care is a basic human right and that the government has an obligation to protect that right out of responsibility for the common good. Consequently, we have joined you in past initiatives to protect that right through legislation which would provide for all citizens access to affordable quality health care. That those initiatives have failed is a travesty of justice, leaving us the only

industrialized nation in the world without a guarantee of health care for all its citizens.

Sadly, at this point, the nation's non-system is hopelessly fragmented while the number of uninsured grows daily. As the need for patients' protections indicate, even those privately insured under a variety and complexity of health care plans- the details of which often elude them - are not guaranteed necessary, timely and quality health care.

Therefore, as we support HR 2723, we urge you to use the lessons of these two years as a launching pad toward universal access to quality, affordable health care. Universal access to affordable quality health care will be for NETWORK and many of our allies a critical election issue.

Sincerely,

Kathy Thornton, RSM
