

We would like to express our concerns about the new flight paths the airport is considering. These new paths take the jets and planes directly over our homes, which back up to Valley Country Club. We have large investments in our homes here as do the other homeowners that are around the Country Club. (The Villas at Valley Country Club, Algonquin Acres, and The Sanctuary. We see no reason to take aircraft in the proposed directions. There is a straight path that can be use at takeoff which takes the aircraft over the park and not over homes. Besides the noise factor, you must be concerned with the safety factor, also. Just because the people in Greenwood Village are unhappy does not give you the right to take the planes over a more heavily populated area that does not "in their opinion" have the status of GWV.

We sincerely hope you will take our concerns as seriously as we all do.
