Denver Airports District Office
26805 E. 68th Avenue Suite 224
Denver, CO 80249

Dear Linda,

The City of Lone Tree endorses the twelve recommendations put forth in the Part 150 Study for Centennial Airport, with our added support for strong enforcement measures on the part of the FAA and Centennial Airport to implement the study's recommendations. Through a concerted effort of enforcement, we can be more assured that Centennial Airport will remain vital to this area as an integral component to the area's economic well being and thus a valued neighbor to the Lone Tree community.

Our recommendation follows a process of two public meetings held on the Part 150 Study before our Planning Commission and City Council. We endeavored to gain more public awareness to the Study's findings through a mailing we sent to all our homeowner representatives explaining the study's recommendations and extending an invitation for them to attend our public meetings. Several members of the public did attend, and seemed satisfied that their concerns were heard and their questions answered.

We want to extend our appreciation to the Centennial Airport staff and board in relating and considering the Lone Tree community in their planning efforts, and also appreciate the time taken by Michael Fronapfel, Manager of Planning and Development for Centennial Airport, to present the study's findings and answer our many questions.

Thank you for considering our comments in your final deliberations.

John R. O'Boyle
Mayor, City of Lone Tree
