

I live in the Sierra Vista neighborhood just to the southeast of Centennial Airport. Runway 10-28 creates some traffic over our neighborhood, which at least one neighbor has complained about, but I think there are no significant noise issues at this location.

Centennial Airport is an excellent GA facility and they are doing a wonderful job and I support them wholeheartedly. As far as I'm concerned, GA facilities are a magnificent benefit to a community and we are glad to have them here.

Regards,
