

The following are my

Part 150 Noise Study Recommendations for Centennial Airport aviation activity:

- 1) Ban all Stage 1 aircraft.
- 2) Ban all Stage 2 aircraft between the hours of 10 PM and 7 AM.
- 3) Fly a 010-degree departure heading for business jets between the hours of 10 PM and 7 AM.
- 4) Flight test a 350-010 degree "fan" departure heading on a 24 hour basis.
- 5) Eliminate the "preferential runway" use procedure.
- 6) Fly a 170-degree departure heading for approximately 4 miles before executing a + or - 20-degree turn.
- 7) Establish a Noise Office.
- 8) Acquire and install a radar-linked noise monitoring system.
- 9) Establish a "Fly Quiet" Program for pilots.
- 10) Conduct periodic reviews of plans and operational procedures.
- 11) Establish a standing "Roundtable" of stakeholders.

Sincerely,

Elmar Fend
