

I would like to provide comments on the Centennial Airport Part 150 Study, as requested in the February 22, 2008, Federal Register. I have reviewed the Noise Compatibility Program recommendations and have identified that the following flight track changes have the potential to increase aircraft noise over Aurora neighborhoods:

- Recommendation 3-Implement 010 degree departure heading for jet aircraft at night .
- Recommendation 4-Test 24-hour flight tracks between 350 and 010 degree headings .
- Recommendation 5-Elimination of preferential runway use. I oppose these recommendations and urge FAA not to approve these flight tracks.

In addition, I request that the preferential runway be used more frequently to reduce the number of flights over my neighborhood.

Sincerely,

Laura Wilcox
14620 E. Penwood Place, Aurora, Co 80015
