

The Castle Pines North Master Association is hosting a public information meeting with the representatives from the Centennial Airport to discuss air traffic noise issues [Federal Register Notice No. 73 FR 9847]. Since I will be unable to attend this meeting, I am sending you an email to voice my concerns. I would want the air traffic noise to be below the current noise level over Castle Pines North. This includes both the small planes as well as the jets that occasionally fly over this area. There is plenty of open spaces East of 125 that the planes can utilize to fly into and out of Centennial airport.
