

I am a resident of an Aurora neighborhood called Shenandoah. I want to express my concern over additional noise from the Centennial Airport. The airport is located in Centennial and it should remain as such!!!! We get enough noise from the airport as is including DIA. I used to live in Greenwood Village and by no means did I feel it was excessive. What reasoning do you have to change the current flight path other than complaints from homeowners in that area. This area has already been hit with hard and now you want to make it even harder for those of us who are trying to better the area. I am asking that you please look for an alternative to routing over Shenandoah.
