

I am writing regarding Federal Register Notice No. 73 FR 9847. I live in the Castle Pines North community in Douglas County, Colorado. We pay some of the highest taxes in the state so I was very frustrated and angry to learn there is consideration of routing air traffic right over our homes. If I wanted to hear airplanes day and night, I would have moved closer to Centennial airport. Please do not allow the re-routing of air traffic over our neighborhood. We have a fantastic home and spend huge amount of time outside. The air traffic will take away from our peace and quality of life.

Thank you for your consideration.
