

**Attention: Linda Bruce**  
**RE: Federal Register Notice No. 73 FR9847**

Dear Ms. Bruce,

This letter is to notify you of concerns about the Centennial Airport Noise Study from Valley Club Acres HOA located at the Northwest corner of Parker and Arapahoe Roads.

After review of the Centennial Airport's Part 150 Noise Exposure and Land Use Compatibility Program three issues are of concern for our neighborhood. They are:

- Recommendation 3: Implement 010 degree departure heading for jet aircraft at night
- Recommendation 4: Test 24-hour flight tracks between 350 and 010 degree headings
- Recommendation 5: Elimination of runway use

It appears these will potentially increase aircraft noise over our neighborhood which has been in existence for over 40 years. Any new residential neighborhood has been alerted they are buying a home in the "Centennial Airport Influence Area".

We support all other efforts on behalf of the Noise Exposure and Land Use Compatibility Program and appreciate your time and consideration of the concerns on behalf of our neighborhood.

Sincerely,

Steve Kromka
