NHANES 2005–2006 Data Documentation

Questionnaire Section: Sexual Behavior (SXQ_D)

First Published: March 2008

Last Revised: NA

Component Description

The ACASI section on sexual behavior (SXQ) provides information on lifetime and current sexual behavior for both men and women. Major items in this section include age at first sexual intercourse, number of sexual partners, sexual orientation, circumcision status (men) and history of sexually transmitted diseases.

Eligible Sample

Sample persons aged 14-59 years were eligible. Several questions in this section are age and gender specific. Mentally impaired individuals or participants who were unable to understand English or Spanish were not asked these questions. Only data from participants aged 20-59 years are included in this release. Special use data files for participants 14-19 years are available through the NCHS Research Data Center.

Interview Setting and Mode of Administration

The sexual behavior questionnaire was administered during the physical examination, at the examination center in a private room, using the Audio Computer Assisted Self Interview (ACASI) system for study participants 14 and older.

The ACASI was conducted in either English or Spanish. The ACASI enables respondents both to hear questions through earphones and read questions on the computer screen. Respondents move at their own speed and touch the screen to indicate their response. No proxy respondents or translators were used in situations when the respondents could not self-report.

Quality Assurance & Quality Control

For details on the QA/QC process for this component, please refer to the MEC Interview Manual on the NHANES website.

Data Processing and Editing

Responses to SXD031 (age at first sexual intercourse) that were 9 years or less were grouped and coded as “9 years or younger.”

Responses to SXD171 (# of female partners) that were 2000 or more partners were grouped and coded as “2000 or more” partners.

Analytic Notes

Questions have changed from the NHANES Sexual Behavior 2003-2004 Public Data Release. Many of these changes were rewording of the questions to make them more specific (see table 1), as well as new questions added (see table 2). Analysts should take this into account and make sure they are familiar with all the questions before trying to merge datasets.

Table 1. Comparison of 2003-2004 questions with 2005-2006.*

2003-2004 Question		2005-2006 Question	
Variable	Question	Variable	Question
SXQ.020	The next set of questions is about your sexual behavior. By sex, we mean vaginal, oral, or anal sex. Please remember that your answers are strictly confidential. Have you ever had sex? (B)	SXQ.021	The next set of questions is about your sexual behavior. By sex, we mean vaginal, anal, or oral sex. Please remember that your answers are strictly confidential. Have you ever had vaginal, anal, or oral sex? (B)
SXQ.030	How old were you when you had sex for the first time? (B)	SXQ.031	When you first had vaginal, anal, or oral sex, how old were you? (B)
SXQ.100	In your lifetime , with how many men have you had sex? (F)	SXQ.101	In your lifetime , with how many males have you had vaginal, anal, or oral sex? (F)

SXQ.120	In the past 12 months , with how many men have you had sex? (F)	SXQ.450	In the past 12 months , with how many males have you had vaginal, anal, or oral sex? (F)
SXQ.130	In your lifetime , with how many women have you had sex? (F)	SXQ.130	In your lifetime , with how many females have you had sex? (F)
SXQ.150	In the past 12 months , with how many women have you had sex? (F)	SXQ.490	In the past 12 months , with how many females have you had sex? (F)
SXQ.170	In your lifetime , with how many women have you had sex? (M)	SXQ.171	In your lifetime , with how many females have you had vaginal, anal, or oral sex? (M)
SXQ.190	In the past 12 months , with how many women have you had sex? (M)	SXQ.510	In the past 12 months , with how many females have you had vaginal, anal, or oral sex? (M)
SXQ.200	In your lifetime , with how many men have you had sex? (M)	SXQ.410	In your lifetime , with how many males have you had anal or oral sex? (M)
SXQ.220	In the past 12 months , with how many men have you had sex? (M)	SXQ.550	In the past 12 months , with how many males have you had anal or oral sex? (M)
SXQ.250	In the past 30 days , how many times have you had sex without using a condom? (B)	SXQ.251	In the past 12 months , about how often have you had vaginal or anal sex without using a condom? (B)

*These are the variable numbers used in the collection instrument, actual variable numbers in the dataset may be slightly different.

Table 2. New Questions in 2005-2006

Variable	Question
SXQ.350 SXQ.470	With how many of these males have you had only oral sex? (F)
SXQ.400 SXQ.530	With how many of these females have you had only oral sex? (M)
SXQ.430 SXQ.570	With how many of these males have you had only oral sex? (M)
SXQ.610	In the past 12 months , about how many times have you had vaginal or anal sex? (B)
SXQ.590	Of the persons you had sex with in the past 12 months, how many were five or more years older than you? (B)
SXQ.600	Of the persons you had sex with in the past 12 months, how many were five or more years younger than you? (B)

(B) = asked to both male and female respondents

(M) = only asked to males respondents

(F) = only asked to female respondents

Compared to past NHANES cycles, the prevalence has gone up for respondents answering “No” to ever having sex, including respondents who were pregnant at exam, gave a history of pregnancy or self-reported being married, divorced, widowed, separated, or living with a partner. Analysts are advised to recode SXQ021 based on pregnancy status, ever been pregnant and marital status. Data will be missing for most of the variables in the sexual behavior section for these respondents since an answer of “No” to SXQ021 skips the respondent out of the questionnaire, with an exception of one other question for females and 2 other questions for males.

Although this issue is more pronounced in the 2005-2006 data release, this was also an issue in previous releases. If analysts are planning to combine data with previous cycles they may want to consider the same type of recode for SXQ020.

Pregnancy Status (RIDEXPRG): If pregnancy status is coded as “1”, or ‘Yes, positive lab pregnancy test or self-reported pregnant at exam’, then analyst should recode SXQ021 (Have you ever had vaginal, anal, or oral sex?) to equal “1” or ‘Yes’. There were approximately 13 women who reported “2” or ‘No’ to SXQ021 who were pregnant at exam. Below is a table illustrating the prevalence of women for the 2005-2006 data reporting “no” to SXQ021 based on pregnancy status.

Table 3. Adult (20-59) female prevalence estimates for **NEVER** had vaginal, anal, or oral sex (**SXQ021 = 2**) and **pregnancy status** (RIDEXPRG), for complete and partial exams of the sexual behavior questionnaire(SXAISC=1 or SXAISC=2), NHANES 2005-2006

Pregnancy Status	Sample Size	Percent* never had sex	95% CI
Total females with complete and partial SXQ questionnaire	1568	4.9	3.9-6.1
Pregnant at exam	305	6.1	2.5-14.4
Not pregnant at exam	1234	4.8	3.9-6.0
Cannot ascertain	29	3.9	0.6-21.8
Missing	0	.	.

*Prevalence estimates are weighted

Pregnancy History (RHQ131): If RHQ131 (Have you ever been pregnant? Please include current pregnancy, live births, miscarriages, stillbirths, tubal pregnancies and abortions.) is equal to “1”, or ‘Yes’, then analyst are urged to recode SXQ021 to “1” or ‘Yes’. Below is a table illustrating the prevalence of women for the 2005-2006 data reporting “no” to SXQ021 based on pregnancy history.

Table 4. Adult (20-59) female prevalence estimates for **NEVER** had vaginal, anal, or oral sex (**SXQ021 = 2**) and **EVER** been **pregnant** (RHQ131), for complete and partial exams of the sexual behavior questionnaire (SXAISC=1 or SXAISC=2), NHANES 2005-2006

Ever been pregnant	Sample Size	Percent* never had sex	95% CI
Total females with complete and partial SXQ questionnaire	1568	4.9	3.9-6.1
Yes	1322	2.8	1.8-4.2
No	244	13.4	9.2-19.1
Missing	2	0.0	.

*Prevalence estimates are weighted

Marital Status (DMDMARTL): Analyst are urged to recode SXQ021 to “1” if the marital status =:

- “1” (Married)
- “2” (Widowed)
- “3” (Divorced)
- “4” (Separated)
- “6” (Living with Partner)

Below is a table illustrating the prevalence by gender for the 2005-2006 data reporting “no” to SXQ021 based on marital status.

Table 5. Adult (20-59) prevalence estimates for **NEVER** had vaginal, anal, or oral sex (**SXQ021 = 2**) by gender, and marital status, for complete and partial exams of the sexual behavior questionnaire(SXAISC=1 or SXAISC=2), NHANES 2005-2006

Marital Status	Sample Size	Percent* never had sex	95% CI
Total males and females with complete or partial SXQ questionnaire	2931	8.3	6.9-10.0
M/W/D/S/LwP**	2327	7.0	5.8-8.4
Never Married	602	14.3	10.8-18.8
Missing	2	0.0	.
Male	1363	11.8	9.6-14.5
M/W/D/S/LwP**	1069	11.4	9.4-13.9
Never Married	293	13.4	9.3-18.8
Missing	1	0.0	.
Female	1568	4.9	3.9-6.1
M/W/D/S/LwP**	1258	2.7	1.9-3.8
Never Married	309	15.4	11.4-20.3
Missing	1	0.0	.

*Prevalence estimates are weighted

** Married/Widowed/Divorced/Separated/Living with Partner

Please refer to the Analytic Guidelines for further details on the use of sample weights and other analytic issues on the NHANES website. The Analytic Guidelines are available on the NHANES website.
