

# The Third National Health and Nutrition Examination Survey (NHANES III, 1988-94) Reference Manuals and Reports

October 1996

The Third National Health and Nutrition Examination Survey was conducted by the National Center for Health Statistics between 1988-94. The survey was designed to obtain nationally representative information on the health and nutritional status of the population of the United States.

This CD-ROM contains the following publications, manuals, and reports from the NHANES III:

- Plan and Operation of the Third National Health and Nutrition Examination Survey, 1988-94
- Analytic and Reporting Guidelines
- Weighting and Estimation Methodology
- Accounting for Item Nonresponse Bias
- Field Operations Reference Manuals (by topic)

These reference manuals and reports can be viewed, searched, printed, and downloaded using the Adobe Acrobat software on the CD-ROM. Exception: The questionnaires, examination forms and graphics aren't searchable, however, they can be viewed, printed, and downloaded.

For more information on this or other CD-ROM products available from the National Center for Health Statistics, contact:
