

performance of functions of the U.S. OPM and its Federal Investigative Services Division, which administers background investigations;

- Whether our estimate of the public burden of this collection is accurate, and based on valid assumptions and methodology;

- Ways in which we can minimize the burden of the collection of information on those who are to respond, through use of the appropriate technological collection techniques or other forms of information technology; and

- Ways in which we can enhance the quality, utility, and clarity of the information to be collected.

The SF 85, SF 85P, SF 85PS, SF 86, SF 86A, and SF 86C are completed by both employees of the Federal Government and individuals not employed with the Federal Government, including Federal contractors and military personnel.

Federal employees are defined as those individuals who are employed as civilian or military personnel with the Federal Government. Non-Federal employees include members of the general public and all individuals employed as Federal and military contractors, or individuals otherwise not directly employed by the Federal Government.

It is estimated that 45,100 non-Federal individuals will complete the SF 85 annually. Each form takes approximately 30 minutes to complete. The estimated annual public burden is 22,600 hours.

It is estimated that 87,400 non-Federal individuals will complete the SF 85P annually. Each form takes approximately 60 minutes to complete. The estimated annual burden is 87,400 hours.

It is estimated that 10,600 non-Federal individuals will complete the SF 85PS annually. Each form takes approximately 10 minutes to complete. The estimated annual burden is 1,800 hours.

It is estimated that 190,100 non-Federal individuals will complete the SF 86 annually. Each form takes approximately 120 minutes to complete. The estimated annual burden is 380,200 hours.

It is estimated that 16,000 non-Federal individuals will complete the SF 86A annually. When this continuation form is used, however, no public burden estimate is provided as it is included with the time computed with the associated security questionnaire.

It is estimated that 1,200 non-Federal individuals will complete the SF 86C annually. Each form takes

approximately 15 minutes to complete. The estimated annual burden is 300 hours.

The total estimated annual number of responses for all forms in this collection is 350,400. The estimated annual burden is 492,300 hours.

e-QIP (Electronic Questionnaires for Investigations Processing) is a Web-based system application that houses electronic versions of the SF 85, SF 85P, SF 85PS, and SF 86. This internet data collection tool is used in place of and not in addition to the paper versions of these forms. Individuals using e-QIP will enjoy more convenience, faster processing time, and immediate data validation to ensure accuracy of their personal history information. The data requested on these forms is consistent with that requested on their paper counterparts. While e-QIP will significantly enhance the processing of security questionnaires for processing of background investigations, we do not expect an immediate discernable change to the public burden hours from those cited above for identical paper versions of the forms. However, we expect to have separate, estimated figures for publication in the 30-day **Federal Register** Notice.

In FY 2007, the total number of e-QIP users totaled 622,300. This includes 40,000 submitted on the SF 85; 69,000 on the SF 85P; and 513,300 on the SF 86.
