

Determining Mission Dependency of SC Assets

General SC Philosophy: All facilities are mission related (i.e., MC or MD-NC) unless they are non-operating excess.

MC – Mission Critical
MD-NC – Mission Dependent, Not Critical
NMD – Not Mission Dependent

*Generally all Category 700 Series buildings are automatically designated as Mission Critical; however a site may request approval from SC-31.2 for a lower designation

** If this facility goes down, the User Facility or Other R&D Facility goes down (even if only for 5 minutes)
