Today's Reports for Tomorrow's Decisions

A Word About NASS Reports...

The Agricultural Statistics Board (ASB) publishes reports of production, stocks, inventories, disposition, utilization, and prices of agricultural inputs and commodities, and other items such as labor, farm numbers, and agricultural chemical usage.

National reports are issued from the Washington, D.C., headquarters. Individual State reports are issued from the Field Offices (FO's) following release of the national reports. Printed copies of both ASB and FO reports are available for a fee.

An abundance of agricultural information is available to data users through our programs. In addition to the information above, estimates on more specialized commodities, including hop stocks, mink, cherries, cranberries, lentils, and peppermint oil are also available. The information is geared toward producers and can help them plan planting, feeding, breeding, and marketing programs. The data are also used by agricultural organizations, services, businesses, trade groups, and financial institutions to determine demand for inputs, resources, transportation, and storage-related crop and livestock products. Data are used to make and carry out agricultural policy concerning farm program legislation, commodity programs, agricultural research, and rural development.

Data Security Is Our Top Priority. Names, addresses, and personal identifiers are never revealed. NASS survey and census data never leave NASS control.

Only authorized persons working for NASS as employees or sworn partners, who are subject to fines and imprisonment for unauthorized disclosure, can access NASS data and only for approved statistical purposes. NASS does not conduct surveys or provide data for private, proprietary purposes.

When NASS collects data for others in a NASS-approved statistical study, farmers and ranchers will always be informed about the cooperating sponsor and participation will always be voluntary.

Summary data from all NASS surveys and censuses are available to everyone, but will never disclose individual reported information.

How to Order

To subscribe to national reports, use the order form in this publication, call toll-free **(800) 999-6779** or order at: <http://www.ntis.gov/products/specialty/usda/>. State reports may be obtained from the appropriate FO.

Electronic Information

NASS reports are available electronically immediately after release via Today's Reports from the NASS homepage at <http://www.nass.usda.gov>.

E-Mail Subscriptions

E-Mail Subscriptions to NASS and World Agricultural Outlook Board (WAOB) periodicals are available free of charge via e-mail, generally delivered within one hour of publication. Our electronic mailing list provides quick and timely access to the agricultural and economic information estimates. Please note that

delivery time may take longer depending on factors, such as network speed and report size.

NASS Revision Policy

Most estimates are subject to revision, if necessary, when the next estimate is prepared. Revisions are made to provide data users with the best possible data for evaluating the current estimates. Revisions are based on additional information, such as new surveys, late reports, corrected data, or more complete administrative data. Revisions may also be based on a re-evaluation of previous survey data when making current estimates to improve survey to survey relationships.

Understanding USDA Crop Forecasts

The publication describes the statistical methodology used by the National Agricultural Statistics Service to prepare the crop forecasts to give users of the data a better understanding. This is followed by a similar description of the world agriculture supply and demand estimates prepared by the WAOB. This publication is also available in Spanish, Russian and Chinese. To obtain a copy of this publication call Customer Service at (800) 727-9540 and ask for Miscellaneous Publication No. 1554.

Other USDA Publications

Several other USDA Agencies also issue a variety of economic reports which may be of interest to NASS customers. More information about the reports at these Agencies can be obtained from the following telephone numbers or Internet addresses:

NASS Products and Services

NASS on the World Wide Web

NASS has a homepage on the World Wide Web that provides easy access to the wide range of information and data products. Through the homepage, you can obtain copies of all reports described in this catalog, commodity and price specialists, and more.

NASS Homepage -- <http://www.nass.usda.gov>

Through a cooperative project with Cornell University, the Albert R. Mann Library distributes NASS, Economic Research Service (ERS), and World Agricultural Outlook Board (WAOB) periodicals and data files via the USDA Economics and Statistics System on a web server. Over 500 reports annually are available free of charge. All NASS reports and WAOB's World Agricultural Supply and Demand Estimates (WASDE) are available electronically within minutes of release.

A calendar of scheduled releases is available from the NASS Homepage. In the right navigation bar under **Find NASS Publications**, click on **By Date** and choose the year and month.

NASS Subject Specialists on the Internet

NASS maintains a listing of subject and commodity specialists for the various program areas. From the NASS Homepage, Click on **Contact a Specialist** in the right navigation bar under **I Want To**.

NASS Customer Service

NASS operates an information center, staffed 7:30 a.m. to 4 p.m. ET Monday-Friday, to assist you with accessing reports and data via the Internet, or printed copies. Please call (800) 727-9540.

Agricultural Statistics Data Base (Quick Stats)

U.S. and State information, published in NASS national reports, is available in an online database via the Internet **FREE OF CHARGE**. The database allows custom extracts based on commodity, year, State, and other selection criteria and produces an output file compatible for updating databases and spreadsheets for selected commodities. The database can be accessed from the NASS Homepage at: <http://www.nass.usda.gov> under the heading "Quick Stats".

County level data are also available via Quick Stats. The data include the total crops for each county and breakouts for irrigated and non-irrigated practices for many crops, for selected States. The database allows custom extracts based on commodity, year, selected counties within a State, or all counties in one or more States. The county data include totals for the Agricultural Statistics Districts (county groupings) and the State. The download data files contain planted and harvested area, yield per acre, and production.

Another method for customers to access crops county data are via pre-extracted files. The pre-extracted data files, in Comma-Separated Value (CSV) format, are available for the current year, as well as historic years. These files were extracted from the

Quick Stats and contain total crop and cropping practices for each county. These files are located from the NASS Homepage by clicking on Data and Statistics.

District forecasts are also available for selected States during the current year. To access these forecasts from the NASS Homepage, click on Data and Statistics. The forecasts can be found under the State and County heading on the Quick Stats page.

Free E-Mail Subscription to NASS Reports

Subscribe E-mail - Mann Library provides a **FREE** e-mail service for NASS reports. When a current report is released, it is sent via e-mail to the list of subscribers for that report. From NASS Homepage at <http://www.nass.usda.gov>, select **Receive National Reports by Email** under **Syndication** in the right column. Follow the instructions on the next page to create and manage your subscriptions. **There is no charge for e-mail subscriptions via Internet.** You may "unsubscribe" at any time.

Rich Site Summary (RSS) Alerts

RSS feeds are free content feeds from Web sites that contain article headlines, summaries and links back to full-text articles on the web.

RSS uses XML technology to syndicate web content, sending it directly to your desktop, your web browser, or an web-based RSS reader. Instead of visiting a specific Web site to search for new articles and features, RSS is a convenient way to alert you when content of interest appears on your favorite Web sites.

Currently NASS has both a News and Coming Events feed, as well as a feed available for our Today's Reports. In the future NASS expects to offer an RSS material based on user feedback. For more information and additional subscription options visit:

<http://www.nass.usda.gov/Help/RSS/index.asp>

Data Users Meetings Give Us Your Feedback!

NASS sponsors annual U. S. Department of Agriculture (USDA) data users meetings to solicit comments and suggestions from users of statistical and economic reports issued by NASS, World Agricultural Outlook Board, Economic Research Service, Foreign Agricultural Service, Agricultural Marketing Service, and The Foreign Trade Division from the Census Bureau.

These meetings provide an open forum where representatives of the data programs are available to answer questions about their agency's current programs and receive public suggestions for possible changes.

Proceedings are prepared from some of the meetings and provided to the participants.

These meetings are announced on the Internet at the NASS homepage <http://www.nass.usda.gov> under "News and Events" as soon as they are scheduled for the upcoming year.

Written comments concerning the data users meetings, questions, or requests for additional information are welcomed. Please direct comments or questions to Amy Jenkins USDA-NASS, Room 5029 South Building, Washington, DC 20250-2000. Phone (202) 690-8141, fax (202) 690-1311, or e-mail amy_jenkins@nass.usda.gov.

Agricultural Statistics Book 2007 CD-ROM. April 2007. **Order #ZAG-2007CD, \$28.00.** *Agricultural Statistics* is published each year to meet the diverse need for a reliable reference book on agricultural production, supplies, consumption, facilities, costs and returns, land resources, farm programs, crop insurance, crop loans, etc. The publication contains 10 years of U.S. data and 3 years of State data covering a wide variety of agricultural facts through the 2006 production year. A comprehensive statistical report (approximately 500 pages) containing current and historical agricultural data, updated annually. Statistics cover grain and feed; cotton, tobacco, sugar crops, and honey; oilseeds, fats, and oils, vegetables and melons; fruits, tree nuts, and horticultural specialties; hay, seeds and minor field crops; cattle, hogs, and sheep; dairy and poultry statistics; farm resources, income, and expenses; taxes, insurance, credit and cooperatives; stabilization and price-support programs; consumption; fertilizers and pesticides; and more.

2002 Census of Agriculture CD-ROM *Census CD-ROM* **Order #AC2002-CD-VOL1, \$50.00.** The 2002 Census of Agriculture State and county data are provided in this CD-ROM. The CD includes software and manipulable data files. It also includes Adobe Acrobat Portable Document Format (PDF) files of the printed reports for each State and the U. S. Summary. Generalized, digital cartographic boundary files of state- and county-level geographic areas for which 2002 Census of Agriculture data are reported. The cartographic boundary files can be used with Geographic Information System (GIS) software as a base for medium to small-scale thematic mapping. Metadata files for the cartographic boundary files are included.

Cropland Data Layer CD-ROM. NASS is pleased to offer this GIS product in the public domain and more specifically for those involved in the agricultural sector of the nation's economy. The Cropland Data Layer products are the final categorized output from NASS' Remote Sensing Program. A crop specific categorization from the Landsat 5 Thematic Mapper (TM) satellite is available on the CD-ROM/DVD of each state. A new product was released in 2005 that included categorizations using the ResourceSat-1 AWiFS sensor for Arkansas, Idaho, Louisiana, Mississippi, Missouri, Nebraska and North Dakota. Each set includes software for image browsing, a digital categorized, mosaicked geo-referenced image of the state and associated accuracy statistics. The images are available in GeoTIFF and ERDAS Imagine .IMG formats, for importing into most commercial GIS and image processing applications. The data are available annually for the darker gray shaded States of Arkansas, Illinois, Indiana, Iowa, Louisiana, Mississippi, Nebraska and North Dakota, Wisconsin and partial coverage is available for Missouri; beginning in the years indicated on the map graphic. For the lighter gray shaded states, they are considered a one time product for the year indicated on the graphic. To obtain a copy, contact NASS Customer Service at

Survey Assistance to Other Organizations

In addition to the many statistical activities directly related to its mission, NASS conducts surveys for and lends technical expertise to other Federal agencies, State governments, and private organizations on a reimbursable basis.

NASS provides support and assistance in the areas of questionnaire and sample design, data collection and editing, analysis of survey results, and training. For further information contact the Survey Administration Branch at (202)720-2248.

NASS International Program Activities

NASS technical support is not confined to the domestic sphere since Agency specialists frequently provide assistance and training to other countries to help establish or improve their agricultural statistics programs.

NASS has been involved in international training and technical assistance activities for over 40 years. Assistance and training are provided to technical staff in other countries for improvement of individual skills and survey methodology to provide more reliable and timely agricultural information. NASS participates in reimbursable international training and technical assistance because they:

1. Allow for improvement of USDA's own assessment of food and fiber production capabilities and levels in foreign countries;
2. Assist the U.S. Government's efforts to help developing countries improve institutions that can help eliminate hunger and poverty; and
3. Develop NASS's human resources by exposure to other cultures and work situations.

For further information contact the NASS International Programs Office at (202)720-4505.

Data Products

NASS can prepare data to meet user specifications. Sponsors must reimburse all costs for specially prepared work. For further information, call the NASS Data Lab at (202)720-5414.

2002 Census of Agriculture

The Census is conducted every 5 years to obtain agricultural statistics for each county, State, and the Nation.

The Census is the leading source of statistics about the Nation's agricultural production and the only source of consistent, comparable data at the county, State, and national levels. The Census is authorized by law under Title 7, U.S. code, and is conducted in close cooperation with the Nation's agricultural user groups and farmer organizations.

The Census includes all places from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the census year.

Special Studies and Censuses are conducted as follow-on programs to the Census. They include a Farm and Ranch Irrigation Survey, an Agricultural Economics and Land Ownership Survey, a Census of Horticultural Specialties, and a Census of Aquaculture.

Volume 1, Geographic Area Series

CD-ROM. Census CD-ROM, Order #AC2005-CD-VOL1, \$50. The CD-ROM consists of several products from the 2002 Census of Agriculture. The Census of Agriculture State and County Data are provided, along with software and manipulable data files. It also includes PDF files of the Volume 1, Geographic Area Series reports for each State, the U.S. Summary, and Puerto Rico. In addition, digital cartographic boundary files of State- and county-level geographic areas, for which the 2002 Census were reported, are included. The cartographic boundary files can be used with Geographic Information System (GIS) software as a base for medium- to small-scale mapping. Metadata files for the cartographic boundary files are included.

Several additional products are provided. They are the Quick Facts, Congressional Districts Profiles, Rankings of Congressional

NASS Products and Services

Districts, State and County Profiles, and the Agricultural Atlas. The data are provided as either PDF files, HTML files, or GIF files.

State and County Data. Separate State reports display statistics for the entire State and every county or equivalent. The United States Summary provides national data and selected data for each State. Data include number of farms; farm characteristics; livestock, poultry, and their products; crops; land use; irrigation; operator characteristics; ownership; income; production expenses; direct marketing; farm labor and migrant workers; agricultural activity on American Indian reservations; chemical use; computer

use, and more. Reports cover 2002, with comparative data for previous census years.

Additional reports are provided for Puerto Rico, Guam, the U.S. Virgin Islands, the Commonwealth of Northern Mariana Islands, and American Samoa.

All reports are available in print and on the Internet. Individual report order numbers and prices are listed on page 7. The U.S. Summary, States, and Puerto Rico are also available on the Census CD-ROM.

2002
CENSUS OF
AGRICULTURE

The 2002 Census of Agriculture Results are Here!

The Census of Agriculture provides consistent, comparable, detailed data for every county and State in the Nation.

The census provides the official facts representing all U.S. producers and commodities.

First time census information is now available on:

- Computer/Internet usage
- Production contracts/landlord shared
- Multiple operators per farm
- More detailed farm-related income
- Cattle on feed inventory
- Aquatic plants
- Acres treated with manure
- Grain storage capacity
- New commodities (bison, deer, elk, lama, emus, and ostriches)
- Certified organic acreage

Data are now available at www.nass.usda.gov. For updates on the census of agriculture and other NASS programs and products, subscribe to news releases by clicking on "News and Coming Events."

Highlights and Profiles

State and County Highlights. Present basic data from the Census of Agriculture including farms by size, land use, market value of sales, operator characteristics, livestock and poultry inventories, and major crops for every county and by State. Data provided for the current and previous Census years. Available on the Internet and on the CD-ROM.

State and County Profiles. Based on results of the Census of Agriculture, describe changes in several key agricultural statistics, and also provide the rank of each county in the State and the Nation in crop acreage, livestock inventories, and sales. Graphics included. Available on the Internet.

Volume 2, Subject Series

ZIP Code and Congressional District (108th Congress) Tabulations. Presents agricultural statistics by five-digit postal ZIP Code and Congressional district (108th Congress) in two separate files, for all farms in all 50 States. Tables show the total market value of products sold and the number of farms by size for land in farms, cropland harvested, selected crops, and inventory of cattle, calves, hogs, and pigs. Crops vary by State, and tables show number of farms by acres harvested for commodities such as tobacco, cotton, soybeans for beans, peanuts for nuts, and land in orchards. Available on the Internet and on the Census CD-ROM.

Agricultural Atlas of the United States. Order # AC2005-SU-1, \$25.00. Features 276 thematic maps highlighting agricultural activities and characteristics such as farm number and size, selected crops harvested, livestock and poultry inventories and number sold, agricultural sales, production expenses, land use, irrigation patterns, fertilizer and chemical use, and machinery and equipment on farms. Displays some changes from 1997-2002. Covers the United States, States, and counties. All maps are available on the Internet and a subset of 60 maps are in a printed report. Both products are included on the Census CD-ROM.

Census of Agriculture History. Order # AC2005-SU-4, \$25.00. Provides a description of the planning and conduct of the 2002 Census of Agriculture. It explains the history of the agriculture census, farm definition, data collection and processing, data dissemination, research, and the census of agriculture in outlying areas. Available on the Internet and as a printed report.

ACKNOWLEDGEMENT

Many thanks to the farmers, ranchers, and producers across the nation who willingly participate in the surveys with the National Agricultural Statistics Service, U. S. Department of Agriculture. They are the strength behind the NASS agricultural inventory, production, price and environmental information, products and services. We appreciate their support and cooperation - they are the cornerstone of the food and fiber system that feeds and clothes the world.
