**Letterhead Certificate for Prepared Beef Products (Bovine/Porcine/Poultry)
Intended for Export to Mexico**

Date Issued _____ **Certificate Number** _____

1. The raw material of animal origin and products are from the country of origin indicated in this document.
2. The product is approved for human consumption.
3. The product was processed at an establishment under official control.
4. In the country of origin of the product there exist animal health regulations in force that prohibit the feeding of ruminants with meat and bone meal or greaves of ruminant origin.
5. The animals from which the product was obtained were slaughtered in installations authorized by the Department of Agriculture of the United States (USDA) and are dedicated exclusively to the slaughter of animals under the age of 30 months or that the plant has acceptable procedures for complete segregation that permits the official from USDA to identify and select the products to be exported.
6. The product was obtained from animals less than 30 months of age, determined by means of records that demonstrate the age or through the postmortem inspection in which it must be verified that the animals from which the product was obtained have two incisive permanent teeth or less.
7. The animals from which the product was obtained were not stunned by means of gas injection in the cranial cavity, or cutting of the spinal cord by laceration of the central nervous tissue, by means of introducing a sharp cutting instrument in the cranial cavity.
8. From the slaughtered ruminants from where the product was obtained, the specific risk materials (tonsils and small intestine) were eliminated.
9. The raw materials of ruminant origin used in the elaboration of the products do not correspond to specific risk materials (tonsils and small intestine).
10. In the elaboration of the product to be exported, no ground meat or meat obtained by advanced meat recovery, nor mechanically separated meat, was included.
11. The meat used in the elaboration of the product comes from ruminants slaughtered on or after March 5, 2004.
12. The country of origin is free of classical porcine fever (Pestivirus).
13. The country or region of origin is free of velogenic Newcastle disease and avian influenza, or, certify that the raw materials of avian origin with which the product was elaborated were subjected to a cooking process with a temperature no less than 60 degrees Celsius for a time of no less than 10 minutes or commercial pasteurization or sterilization indicating temperatures and times. As an equivalent to this requirement an internal cooking temperature of no less than 68 degrees Celsius is acceptable.
