

Similarly, coordination with the North Carolina Division of Coastal Management (NCDCM) determined that the project would require a State EIS developed in accordance with NCEPA; as well as a Major Permit under the Coastal Area Management Act.

2. *Proposed Action.* The scope of activities for the proposed interim beach fill project included: (a) Vibracores in the identified borrow area, (b) side scan sonar surveys of the ocean bottom, (c) in-water investigations of potential near shore hardbottom resources identified by the side scan sonar survey, and (d) beach profile surveys. Offshore investigations included bathymetric surveys, sidescan sonar surveys, seismic and cultural resource surveys, as well as vibracore collection and analysis. The results of the offshore investigations coupled with the compatibility of the sand resource area and native beach sand were assessed to define the borrow area.

3. *Issues.* There are several potential environmental issues that are addressed in the DSEIS. Additional issues may be identified during the public review process. Issues initially identified as potentially significant include:

a. Potential impact to marine biological resources (benthic organisms, passageway for fish and other marine life) and Essential Fish Habitat, particularly hardbottoms.

b. Potential impact to threatened and endangered marine mammals, birds, fish, and plants.

c. Potential impacts to water quality.

d. Potential increase in erosion rates to adjacent beaches.

e. Potential impacts to navigation, commercial and recreational.

f. Potential impacts to private and public property.

g. Potential impacts on public health and safety.

h. Potential impacts to recreational and commercial fishing.

i. The compatibility of the material for nourishment.

j. Potential economic impacts.

4. *Alternatives.* Several alternatives are being considered for the proposed project. These alternatives were further formulated and developed during the scoping process and an appropriate range of alternatives, including the No Action and Non Structural alternative, are considered in the Draft Supplemental EIS.

5. *Scoping Process.* Project Delivery Team meetings were held to receive comments and assess concerns regarding the appropriate scope and preparation of the DSEIS. Federal, state, and local agencies and other interested organizations and persons participated

in these Project Delivery Team meetings.

The COE is also consulting with the U.S. Fish and Wildlife Service under the Endangered Species Act and the Fish and Wildlife Coordination Act, and with the National Marine Fisheries Service under the Magnuson-Stevens Act and Endangered Species Act. Additionally, the Draft Supplemental EIS has assessed the potential water quality impacts pursuant to Section 401 of the Clean Water Act, and is being coordinated with NCDCM to determine the projects consistency with the Coastal Zone Management Act. The USACE will closely work with NCDCM through the DSEIS to ensure the process complies with all North Carolina Environmental Policy Act (NCEPA) requirements. It is the USACE and NCDCM's intentions to consolidate both NEPA and NCEPA processes to eliminate duplications.

6. *Availability of the Draft Supplemental EIS.* The DSEIS has been published and circulated, and a public hearing will be held August 26, 2008 at the Historical Society Assembly Building, 720 Channel Blvd., Topsail Beach, NC at 6 p.m.
