

October 10, 2001

APPLICANT: Duke Energy Corporation

FACILITY: McGuire Units 1 and 2

SUBJECT: SUMMARY OF MEETING HELD IN SUPPORT OF THE ENVIRONMENTAL REVIEW FOR THE MCGUIRE UNITS 1 AND 2 LICENSE RENEWAL APPLICATION (TAC NOS. MB2021 AND MB2022)

On Tuesday, September 25, 2001, members of the U.S. Nuclear Regulatory Commission (NRC) staff held public meetings in Huntersville, North Carolina, concerning the staff's environmental review of the application submitted by Duke Energy Corporation (Duke) for renewal of the operating licenses for its McGuire Nuclear Station, Units 1 and 2. The purpose of the meetings was to provide the public with an opportunity to provide comments on the scope of the draft supplemental environmental impact statement (DSEIS) to be prepared by the NRC staff. Afternoon and evening sessions were held to allow maximum public participation. Formal presentations were made by Rani Franovich and James Wilson, of the NRC staff.

The DSEIS will be a plant-specific supplement for McGuire Units 1 and 2 to the "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (NUREG-1437). The NRC staff described the overall license renewal process, provided a description of the National Environmental Policy Act review process, and discussed the environmental requirements outlined in 10 CFR Part 51.

In addition, in an effort to improve communication and increase interaction with members of the public, the NRC staff conducted open houses for one hour prior to each meeting session. The staff and Duke provided displays and brochures and met with members of the public to answer questions about the proposed renewal of the McGuire operating licenses. Attachment 1 is a corrected transcript for both meetings. Attachment 2 is a copy of the presentation slides. Attachment 3 is a list of attendees for both the 1:30 p.m. and 7:00 p.m. sessions.

After the formal presentations given by the NRC staff, members of the public, Duke, and local and state officials were invited to provide comments. More than 100 people attended the two sessions with several dozen making comments. Attendees included representatives of the

NRC, Duke, and nuclear industry; local government officials; state agency officials; special interest groups, and other members of the public.
