

# **Q4B Evaluation and Recommendation of Pharmacopoeial Texts for Use in the ICH Regions**

## **Annex 4A: Microbiological Examination of Non-Sterile Products: Microbial Enumeration Tests General Chapter**

This draft guidance, when finalized, will represent the Food and Drug Administration's (FDA's) current thinking on this topic. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. You can use an alternative approach if the approach satisfies the requirements of the applicable statutes and regulations. If you want to discuss an alternative approach, contact the FDA staff responsible for implementing this guidance. If you cannot identify the appropriate FDA staff, call the appropriate number listed on the title page of this guidance.

For questions regarding this draft document contact (CDER) Robert King 301-796-1242, or (CBER) Christopher Joneckis 301-827-0373.

Current Step 2 Version  
Dated June 5, 2008

*At Step 2 of the ICH Process, a consensus draft text or guideline, agreed by the appropriate ICH Expert Working Group, is transmitted by the ICH Steering Committee to the regulatory authorities of the three ICH regions (the European Union, Japan and the USA) for internal and external consultation, according to national or regional procedures.*

## **Q4B -- Annex 4A**

### **Evaluation and Recommendation of Pharmacopoeial Texts**

#### **for Use in the ICH Regions**

**ON**

#### **Microbiological Examination of Non-Sterile Products:**

#### **Microbial Enumeration Tests**

#### **General Chapter**

### **ICH Consensus Guideline**

Released for Consultation on June 5, 2008, at *Step 2* of the ICH Process

#### **1. Introduction**

This annex is the result of the Q4B process for Microbiological Examination of Non-Sterile Products: Microbial Enumeration Tests.

The proposed texts were submitted by the Pharmacopoeial Discussion Group (PDG).

#### **2. Q4B Outcome**

##### **2.1 Analytical Procedures**

The ICH Steering Committee, based on the evaluation by the Q4B Expert Working Group (EWG), recommends that the official pharmacopoeial texts, Ph.Eur. 2.6.12. Microbiological Examination of Non-Sterile Products: Microbial Enumeration Tests, JP 4.05 Microbiological Examination of Non-Sterile Products: I. Microbiological Examination of Non-Sterile Products: Microbial Enumeration Tests, and USP <61> Microbiological Examination of Nonsterile Products: Microbial Enumeration Tests can be used as interchangeable in the ICH regions.

##### **2.2 Acceptance Criteria**

The proposed texts evaluated did not contain acceptance criteria.

#### **3. Timing of Annex Implementation**

When this annex is implemented (incorporated into the regulatory process at ICH Step 5) in a region, it can be used in that region. Timing might differ for each region.

#### **4. Considerations for Implementation**

**4.1** General consideration: When sponsors or manufacturers change their existing methods to the implemented Q4B-evaluated pharmacopoeial texts that are referenced in Section 2.1 of this annex, any change notification, variation, and/or prior approval procedures should be handled in accordance with established regional regulatory mechanisms pertaining to compendial changes.

**4.2** FDA consideration: Based on the recommendation above, and with reference to the conditions set forth in this annex, the pharmacopoeial texts referenced in Section 2.1 of this annex can be considered interchangeable. However, FDA might request that a company demonstrate that the chosen method is acceptable and suitable for a specific material or product, irrespective of the origin of the method.

**4.3** EU consideration: For the European Union, the monographs of the Ph. Eur. have mandatory applicability. Regulatory authorities can accept the reference in a marketing authorisation application, renewal or variation application citing the use of the corresponding text from another pharmacopoeia as referenced in Section 2, in accordance with the conditions set out in

94 this annex, as fulfilling the requirements for compliance with the Ph. Eur. Chapter 2.6.12. on the  
95 basis of the declaration of interchangeability made above.

96  
97 **4.4** MHLW consideration: The pharmacopoeial texts referenced in Section 2 of this annex can be  
98 used as interchangeable in accordance with the conditions set out in this annex. Details of  
99 implementation requirements will be provided in the notification by MHLW when this annex is  
100 implemented.

## 101 102 **5. References Used for the Q4B Evaluation**

103  
104 **5.1** The PDG Stage 5B sign-off document: *Japanese Pharmacopoeial Forum*, Volume 14, Number  
105 4, (December 2005)

106  
107 **5.2** The pharmacopoeial references for Microbiological Examination of Non-Sterile Products:  
108 Microbial Enumeration Tests for this annex are:

109  
110 **5.2.1** *European Pharmacopoeia* (Ph. Eur.):  
111 6.3 Edition (official on January 2009) Microbiological Examination of Non-Sterile  
112 Products: Microbial Enumeration Tests (reference 01/2009: 20612)

113  
114 **5.2.2** *Japanese Pharmacopoeia* (JP):  
115 4.05 Microbiological Examination of Non-Sterile Products: I. Microbiological  
116 Examination of Non-Sterile Products: Microbial Enumeration Tests as it appears in  
117 Supplement I to the Japanese Pharmacopoeia Fifteenth Edition, (September 28, 2007,  
118 The Ministry of Health, Labour and Welfare Ministerial Notification No. 316). The  
119 English version was published on January 9, 2008.

120  
121 **5.2.3** *United States Pharmacopeia* (USP):  
122 <61> Microbiological Examination of Nonsterile Products: Microbial Enumeration Tests  
123 official in USP 30, January 2007.
