\* Employment is measured in March, thus some firms (start-ups after March, closures before March, and seasonal firms) will have zero employment  
Notes: NA = Not applicable, (D) = disclosed. Firms are an aggregation of all nonfarm establishments owned by a parent company within an industry.  
NAICS 1998 figures differ slightly SIC figures because of reclassification in the railroad industry.  
Beginning with the 2003 data year, auxiliaries are coded based on type of operation of the firm rather than industry served.
