

$\Delta\sigma/\sigma$  vs. E for  $^{59}\text{Co}(n,\text{tot.})$

Linear Axes:  
Rel. Standard Dev. (%)

Logarithmic Axes:  
Energy (eV)

Correlation Matrix

$\Delta\sigma/\sigma$  vs. E for  $^{59}\text{Co}(n,\text{tot.})$

# $\Delta\sigma/\sigma$ vs. E for $^{59}\text{Co}(n,2n)$

Linear Axes:  
Rel. Standard Dev. (%)

Logarithmic Axes:  
Energy (eV)

Correlation Matrix

$\Delta\sigma/\sigma$  vs. E for  $^{59}\text{Co}(n,2n)$

# $\Delta\sigma/\sigma$ vs. E for $^{59}\text{Co}(n,p)$

Linear Axes:  
Rel. Standard Dev. (%)

Logarithmic Axes:  
Energy (eV)

Correlation Matrix

$\Delta\sigma/\sigma$  vs. E for  $^{59}\text{Co}(n,p)$

$\Delta\sigma/\sigma$  vs. E for  $^{59}\text{Co}(n,\alpha)$

Linear Axes:  
Rel. Standard Dev. (%)

Logarithmic Axes:  
Energy (eV)
