

$\Delta\sigma/\sigma$ vs. E for $^1\text{H}(n,\text{tot.})$

Linear Axes:
Rel. Standard Dev. (%)

Logarithmic Axes:
Energy (eV)

Correlation Matrix

$\Delta\sigma/\sigma$ vs. E for $^1\text{H}(n,\text{tot.})$

$\Delta\sigma/\sigma$ vs. E for $^1\text{H}(n,\text{el.})$

Linear Axes:
Rel. Standard Dev. (%)

Logarithmic Axes:
Energy (eV)

Correlation Matrix

$\Delta\sigma/\sigma$ vs. E for $^1\text{H}(n,\text{tot.})$

$\Delta\sigma/\sigma$ vs. E for $^1\text{H}(n,\text{el.})$

Linear Axes:
Rel. Standard Dev. (%)

Logarithmic Axes:
Energy (eV)

Correlation Matrix

$\Delta\sigma/\sigma$ vs. E for $^1\text{H}(n,\text{el.})$

$\Delta\sigma/\sigma$ vs. E for ${}^1\text{H}(n,\gamma)$

Linear Axes:
Rel. Standard Dev. (%)

Logarithmic Axes:
Energy (eV)

Correlation Matrix

$\Delta\sigma/\sigma$ vs. E for ${}^1\text{H}(n,\gamma)$
