

NOTICE 2: COVER LETTER, CORRECTION ON ITEM 16

Calculation of Unaccompanied Air Baggage Charges: Unaccompanied air baggage will be post-audited based on the following formula: dimension of container divided by 166 (converts to volume kilogram) x **0.4536** x base line rate x TSP percentage. Volume weight is defined as the length, times the width, times the height (in inches), divided by 166 and multiplied by 0.4536. Where gross weight exceeds volume weight, TSP must charge for gross weight.
