DEPARTMENT OF ENERGY

[Docket No. EA-200]

Application To Export Electric Energy; American Electric Power Service Corporation

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: American Electric Power Service Corporation (AEPSC) has applied for authority to transmit electric

energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests or requests to intervene must be submitted on or before March 19, 1999.

ADDRESS: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Power Im/Ex (FE-27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585-0350 (FAX 202-287-5736).

FOR FURTHER INFORMATION CONTACT: Steven Mintz (Program Office) 202-586-9506 or Michael Skinker (Program Attorney) 202-586-6667.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On December 22, 1998, as supplemented on February 3, 1999, the Office of Fossil Energy (FE) of the Department of Energy (DOE) received an application from AEPSC for authorization to export electric energy to Canada. AEPSC has seven public utility affiliates which, collectively, are known as the "AEP Operating Companies." The AEP Operating Companies are investor-owned public utilities that serve retail and wholesale customers in Indiana, Kentucky, Michigan, Ohio, Tennessee, Virginia, and West Virginia. They include: Appalachian Power Company; Columbus Southern Power Company; Indiana Michigan Power Company; Kentucky Power Company; Kingsport Power Company; Ohio Power Company; and Wheeling Power Company. AEPSC and the AEP Operating Companies are wholly-owned subsidiaries of the American Electric Power Company, Inc., a registered holding company with headquarters in Columbus, Ohio.

In its February 3, 1999 supplemental filing, AEPSC indicated that export authorization was being sought only for its generation-owning affiliates, thus excluding Kingsport Power Company and Wheeling Power Company from the application.

The energy and capacity to be exported will be from either surplus generation of the AEP Operating Companies or from purchases on the wholesale market. The Applicants intend to export to Canada using the existing international transmission facilities owned by Basin Electric Power Cooperative, Bonneville Power Administration, Citizens Utilities, Detroit Edison Company, Eastern Maine
