

Oregon Business Energy Tax Credit

Application for Preliminary Certification for Lighting* Projects

** This application is for projects that involve lighting only. If your project involves other energy measures, please use the Application for Preliminary Certification for Conservation Projects.*

Business owners and others who invest in energy conservation lighting projects in Oregon may be eligible for a state tax credit. The tax credit for Lighting Projects is 35 percent of eligible project costs. The tax credit is filed over five years: 10 percent in the first and second years and 5 percent each year thereafter. For projects with eligible costs of \$20,000 or less, the tax credit may be taken in one year. Unused credits can be carried forward up to eight years.

Eligible Applicants

An eligible applicant (a project owner) must meet the following three requirements:

1. Be a trade, business or rental property owner with a business site in Oregon **or** Be an Oregon non-profit organization, tribe, or public entity that partners with an Oregon business or resident;
2. Own or be the contract buyer of the project; and
3. Use the equipment or lease it to another person or business in Oregon.

Pass-through Option

Non-profit organizations, schools and other public entities that do not have an Oregon tax liability may participate in the Business Energy Tax Credit Program by using the Pass-through Option. Project owners may “pass-through” or transfer their 35 percent tax credit project eligibility to a pass-through partner in exchange for a lump-sum cash payment. The Oregon Department of Energy determines the rate that is used to calculate the cash payment. Both the project owner and pass-through partner must sign the Application for Final Certification for Pass-through Projects before a Final Certification is issued to the pass-through partner. The same review, rules and standards apply to projects approved under the Pass-through Option as those using the regular Business Energy Tax Credit Program. **Please note:** The Pass-through Option is also available to a project owner with an Oregon tax liability who chooses to transfer his or her tax credit. There may be tax implications to using the Pass-through Option. Please consult your tax preparer.

Timing

The Oregon Department of Energy must receive the Application for Preliminary Certification for Conservation Projects **BEFORE** the project owner financially commits to start the energy project. For example, an owner must apply before purchasing equipment or signing a contract. If a project owner starts a project and then decides to apply for the tax credit, the owner must submit a written request for a waiver with the application. The waiver request and application must be sent within 90 days of the project start date and must demonstrate an extenuating business circumstance that caused the delay in the application. Under extraordinary circumstances, the Director of the Department of Energy may extend the waiver period.

Work on the project must begin within three years of the approval date of the Preliminary Certificate or within three years of the approval date of any changes to the project. Projects must have a simple payback of more than one year. Projects with simple paybacks greater than 15 years will have eligible costs prorated accordingly. A project owner must receive a Final Certificate before the credit can be claimed on an Oregon tax return.

Confidential Information and Disclosure

The State of Oregon's Public Records Law (ORS 192.410 et seq.) (PRL) applies to tax credit applications submitted to the Oregon Department of Energy. The law states every person has a right to inspect any public record of a public body, subject to certain exceptions.

Trade secrets and confidential business records information may be exempt from disclosure. Certain information, including trade secrets (ORS 192.501(2)) and confidential submissions (ORS 192.502(4)), may be exempt from disclosure under exemptions to the PRL. Please consult your legal counsel to determine whether these or other exemptions could apply to your application.

Mark on each page any information that you believe are trade secrets, business records or that is otherwise protected under the PRL and that you request to be kept confidential. Marking information does not guarantee that it will be kept confidential. The Director of the Oregon Department of Energy will make any decisions regarding public disclosure of information contained in this application in accordance with the Oregon Public Records Law.

Under certain circumstances, as set out in ORS 192.445 (1), the personal safety exemption to the PRL, the Oregon Department of Energy is authorized to withhold your address, phone number and electronic mail address. If you want to claim this exemption under the PRL, please contact the Oregon Department of Energy prior to sending in your application for a Business Energy Tax Credit. Please consult your legal counsel to determine whether this exemption applies to you.

The Oregon Department of Energy does not endorse any company that requests application information and does not sell this information as a mailing list.

Before the project begins:

1. A project owner must complete the Application for Preliminary Certification for Lighting Projects. He or she must send the signed form, supporting documentation, and payment for review costs to the Oregon Department of Energy before the project begins. Incomplete applications will not be accepted. **Note:** If using Microsoft WORD version of the application, check the Web site to ensure the latest version is being used. (Dates are in the lower right-hand corner.)
2. A project owner may start the project when he or she receives a Preliminary Certificate. The Oregon Department of Energy usually takes four to six weeks to review an application provided all necessary information is submitted. Incomplete or inadequate information may result in a delay in approval or in denial of the application. Please note: A project owner may begin the project before receiving a Preliminary Certificate, however, there is no guarantee the project will be approved.
3. If vital characteristics of the project change after receiving the Preliminary Certificate, the project owner should submit a signed, written, detailed description of the changes to the project and energy savings estimates. An increase in cost only does not qualify as a project change. If the Department of Energy approves a project change, a project owner may be required to pay an additional review cost.

After the project is complete:

1. A project owner should apply to the Oregon Department of Energy for final certification when the project is completed. If project costs are \$50,000 or more, an owner must send a letter from a certified public accountant (not employed by the project owner) stating that he or she has reviewed the project costs. If project costs are less than \$50,000, the project owner should send copies of the dated invoices, canceled checks or receipts that are marked "paid."
2. The Oregon Department of Energy will review the final application and may issue a Final Certificate. Under no circumstances can the Oregon Department of Energy approve more than 10 percent above the amount of estimated project costs shown on the Preliminary Certificate unless the project was amended in writing and received approval before completion. The sum of all financial incentives and the tax credit may not exceed the total eligible project costs.
3. A tax credit recipient may file the tax credit over five years (10 percent for years one and two; 5 percent for years three, four and five). If the eligible project costs are \$20,000 or less, a tax credit recipient may file for the tax credit in one year. A tax credit recipient may begin claiming the tax credit the year the project is finished or the year the Oregon Department of Energy issues the Final Certificate.

Questions? For questions on claiming the tax credit, contact the Oregon Department of Revenue (www.oregon.gov/DOR) or call 1-800-356-4222.

Call the Oregon Department of Energy at 1-800-221-8035 (toll-free in Oregon) or (503) 378-4040 (Salem). Or visit our Web site (www.oregon.gov/energy).

Business Energy Tax Credit Application for Preliminary Certification

Lighting Project

Are you eligible?

Yes No

- Have you submitted this application before financially committing to start this energy project? (e.g. signing a contract, ordering equipment, etc.)
- If no, have you attached a request for a waiver?
- Do you want to use the Pass-through Option?*

*The Pass-through Option will allow you to transfer your tax credit project eligibility to another business or individual (a pass-through partner) in exchange for a lump-sum payment. The payment amount is calculated using the pass-through rate. To use the Pass-through Option, check the Yes box above, complete this application form and send the form to the Oregon Department of Energy. There may be tax implications to using the Pass-through Option. Please consult your tax preparer.

For office use only

Application #:

Date received:

1. Project owner information (We will send all correspondence to this person.)

Project owner's name:

Tax I.D. # or SSN*:

Phone:

E-mail:

Business name:

Mailing address:

City/state/zip:

Principal business activity (or SIC, if known):

Contact person for project (Who can answer technical questions about the project?)

Title:

Phone:

E-mail:

Company/organization CPA or CFO:
(If interested in Pass-through Option)

Title:

E-mail:

*OAR 330-090-0130 authorizes the Oregon Department of Energy to use your federal tax identification or social security number as an identification number in maintaining internal records and may be shared with the Oregon Department of Revenue to establish the identity of an individual in order to administer state tax law.

OVER

2. Architect, engineer, vendor or contractor for project	
Firm name of architect, engineer, vendor or contractor:	
Address:	Phone:
City/state/zip:	
Contact person:	E-mail:

3. Project site		
Site address:		
City:	County:	Zip:
Total square footage affected by this project :		

4. Estimated construction or installation dates	
Estimated start date:	Estimated completion date:

5. May the Oregon Department of Energy publicize your project to promote efficiency to other businesses?
<input type="checkbox"/> Yes <input type="checkbox"/> No

6. How did you learn of the Business Energy Tax Credit Program?
<input type="checkbox"/> Associate <input type="checkbox"/> Advertisement <input type="checkbox"/> Workshop <input type="checkbox"/> Utility <input type="checkbox"/> Vendor <input type="checkbox"/> Other:

7. Tax credit eligibility requirements—To be eligible, you must meet one of the following requirements. Check the requirement your project will meet.
<input type="checkbox"/> New building – Building lighting system must be at least 10 percent more energy efficient than the a code-compliant baseline lighting system.
<input type="checkbox"/> Existing building – New lighting system must be at least 25 percent more energy efficient that the lighting system being replaced.

8. Project description— Describe the lighting project in detail including type of existing fixtures and proposed fixtures, number of fixtures, wattage (W), hours of use, kilowatts (kW) and the kilowatt hours (kWh) saved. For your convenience an Excel spreadsheet is available on our Web site at www.oregon.gov/energy/bus/tax/taxcdt/lighting that does the calculations for you. You may complete the Excel spreadsheet (or similar spreadsheet) and attach to satisfy this section of your application.

Existing Fixtures						Proposed Fixtures						Savings
Lamp type (A)	# of fixtures (B)	W/fixture (C)	Hours (D)	kW (E) = (B) x (C)/1000	kWh (F) = (E) x (D)	Lamp type (G)	# of fixtures (H)	W/fixture (I)	Hours (J)	kW (K) (H) x I/1000	kWh (L) (J) x (K)	KWh saved (M)= (F)-(L)

9. Estimated project cost — If more space is needed, attach a separate sheet.	
Materials:	Estimated cost:
Labor:	Estimated cost:
Engineering:	Estimated cost:
Other: (Do not include Business Energy Tax Credit review costs)	Estimated cost:
Total of Estimated Costs from above:	A. \$
Deduct federal grants: Note: OAR 330-090-0110 (19) (n) The sum of any rebates or cash payments under ORS 469.631 to 469.645, 469.649 to 469.659, 469.673 to 469.683, or 757.612(5)(a), or from a public purpose organization and the Business Energy Tax Credit may not exceed eligible costs.	B. \$
Deduct cost of system that meets Oregon code: (This applies to new construction only. If codes do not apply, subtract the cost of your least-efficient alternative that is standard practice.)	C. \$
TOTAL Eligible Project Cost Take A and subtract B and C to get the total Eligible Project Cost (D)	D. \$

OVER

10. Current annual electric energy use — This is your annual electricity use **prior** to installing your lighting project. (If your project involves more than lighting, please use the Application for Conservation Projects.) Attach meter data, spreadsheet, energy model, or show in the space below how you calculated your answer(s). If more space is needed, attach a separate sheet. To complete this application, the electricity use must be converted into MMBtu. A Btu is a British Thermal Unit, a standard unit of measurement used to denote both the amount of heat energy in fuels and the ability of systems to produce heating or cooling. MMBtu represents a thousand thousand Btu. To convert your electricity usage to MMBtu, multiply the annual electric energy use by the conversion factor and divide by 1,000,000.

Electric utility:		Natural gas utility:	
Fuel	A Annual Usage	X B Conversion	= C Annual Usage in MMBtu
Electricity	kWh/yr	X 3,413 Btu per kWh ÷ 1,000,000	= MMBtu
TOTAL			MMBtu

11. Estimated annual electricity use after project is installed — Show the project electricity use per year after the project is installed. Show how you calculated your answer. Use the space below or attach separate pages. If your business had a utility energy audit, you may attach copies of relevant pages to support claimed energy savings. If more space is needed, attach a separate sheet.

Electricity:	kWh/year

OVER

12. Estimated annual electricity use saved from the project – Calculate the estimated annual electricity use saved in MMBtu using the table below.					
Fuel	A Annual energy use before project (See 10-A) —	B Estimated energy use after project = Installation (See 11)	C Annual energy savings	X Convert annual energy = savings to MMBtu	D Annual MMBtu saved
Electricity	_____ kWh —	_____ kWh	_____ kWh	X 3,413 Btu per kWh ÷ 1,000,000 =	_____ MMBtu
TOTAL					_____ MMBtu

13. Calculate percentage of energy savings			
Total annual energy savings in MMBtu (See 12-D)	÷	Total current energy use before project in MMBtu (See 10-C)	X 100 = % of energy savings
	÷		X 100 = %

14. Annual cost savings: Calculate the cost savings per year using the table below.				
Fuel type	A Energy savings per year (See 12-C)	X	B Cost per unit (See your utility bill)	= C Annual cost savings
Electricity	_____ kWh	X	\$ _____	= \$ _____
TOTAL cost savings per year				\$ _____

15. Payback period—Calculate the project simple payback period (how long the project will take to pay for itself through its energy savings). To qualify, the payback must be between 1 year and the expected life of the equipment installed. Projects with simple payback over 15 years will have eligible costs prorated accordingly.	
15a. Total eligible cost (see 9)	\$ _____
15b. Total cost savings per year (see 14-C)	\$ _____ /year
Simple payback (15a divided by 15b)	_____ years

OVER

16. Business Energy Tax Credit review charge

Applications will **not** be reviewed until review cost is paid in full.

Total eligible project cost (See 9-D) _____ x .0060 = \$ _____

Minimum payment required is \$30; maximum payment is \$35,000. Make check payable to the Oregon Department of Energy and include with this application. You may also pay by Visa or MasterCard.

I want to pay by Visa/MasterCard. Please contact me at this phone number: _____.

If all or a portion of your application is denied, or if a change in your project results in lower costs, a portion up to 75 percent of this payment may be refunded within two years of pre-certification. If you add to your approved project, you must send a written description of the additions and the costs to be eligible for a tax credit. If the Oregon Department of Energy approves the additional eligible costs, an additional payment may be required. For more information, see Oregon Administrative Rule 330-90-0150(2).

17. Recycling plan

Fluorescent lights, ballast and thermostats often contain harmful PCBs (polychlorinated biphenyls) and/or mercury. Oregon Administrative Rule 330-090-0110 (24) requires businesses applying for a Business Energy tax credit to report if fluorescent lighting, ballasts and or thermostats will be recycled and, if so, how.

A. Is this project a retrofit? (If NO, go directly to Section 18)

Yes No

B. Will you be contracting with a recycling/disposal company for recycling and/or disposal of any lamps, ballasts, or thermostats?

Yes No

If **YES** what is the name of the company: _____

Call the Department of Environmental Quality (DEQ) at 1-800-452-4011 for a list of recycling/disposal businesses in Oregon or visit the Web page www.deq.state.or.us/wmc/hw/documents/uwcollectors.pdf. There is a free national Thermostat Recycling Program available. See the Web site: www.nema.org/trc for more information.

C. If **NO**, will you be contacting the DEQ (phone number above) or consulting the DEQ Fact Sheet*** on proper disposal?

Yes No

***DEQ fact sheet at Web site: www.deq.state.or.us/lq/pubs/factsheets/hw/LampsBallasts.pdf

D. If NO, please describe your plans for disposal in the space below:

OVER

18. Project Owner Preliminary Statement

1. I understand that Oregon Department of Energy approval and certification of my project is for tax credit purposes only. The Oregon Department of Energy does not guarantee or in any way ensure the performance of any equipment, the quality of any system or the reliability of any dealer.
2. I agree that the project will comply with all local, state and federal requirements. I will obtain all necessary permits.
3. I will permit the Oregon Department of Energy or its agents to inspect the project at its discretion to make sure the project qualifies for the tax credit. I understand that if I give false information about the project, or if I refuse to permit the Oregon Department of Energy to inspect the project, I will not get the tax credit.
4. I understand that this tax credit application is a public record and that Oregon Department of Energy may be required by law to disclose information in this tax credit application to the public on request. I have marked any information that I request be kept confidential. I understand that marking information does not guarantee that it will be kept confidential and that the Director of the Oregon Department of Energy will make any decisions regarding public disclosure of information contained in this application in accordance with the Oregon Public Records Law.
5. I understand that the Oregon Department of Energy does not endorse any company that requests information on this application and does not sell information as a mailing list.
6. I hereby release the State of Oregon and its commissions, agencies, officers, employees, contractors, and agents, and agree to defend and indemnify the foregoing from and against any claims, demands, or costs (including attorney and expert witness fees at trial and on appeal) arising from or in any way related to the Oregon Department of Energy's issuance or failure to issue any pre-certification or final certification for a Business Energy Tax Credit, or any party's inability to obtain a Business Energy Tax Credit.
7. I understand that the sum of all financial incentives and the tax credit can not exceed the total eligible project cost.
8. I have enclosed a check to the Oregon Department of Energy or will pay by Visa or MasterCard for the review charge.
9. I verify that the project owner does not restrict membership, sales, or services on the basis of race, color, creed, religion, national origin, sexual preference or gender.
10. I have completed this form to the best of my knowledge.
11. I certify that I am the project owner or the authorized agent.

I have read and agree with the terms, conditions of the Project Owner Preliminary Statement.
