SUPPLEMENTARY INFORMATION: The Commission has been concerned with potential risks posed to children under 3 years of age by the plasticizer diisononyl phthalate (DINP), which is used to soften some children's teething rattles, and toys made from polyvinyl chloride (PVC). DINP can leach from such products when they are mouthed by children, causing some DINP to be ingested. DINP has been shown to cause liver and other organ toxicity in laboratory animals. The Commission has also received a petition (No. HP 99-1) from the National Environmental Trust and eleven other organizations asking that the Commission ban PVC in children's products.

The Commission appointed a seven-member CHAP to evaluate the existing scientific information regarding the mechanism by which DINP may cause cancer and the implications of this on the potential cancer risk to children. The CHAP members were selected from scientists recommended by the National Academy of Sciences. See 15 U.S.C. 2077, 2030(b).

The first meeting of the CHAP on DINP will be held on May 10 and 11, 2000, in the fourth floor hearing room at the Commission's offices at 4330 East-West Highway, Bethesda, Maryland. The meeting will begin at 8:30 am both days and is scheduled to end at 5:00 pm on May 10 and 4:00 pm on May 11.

The meeting is open to the public, space permitting, but no opportunity for public participation in the meeting is scheduled. Such participation shall be permitted only in the discretion of the Chairman of the CHAP. There will be an opportunity in connection with the second meeting of the CHAP for presentation of oral and written data and views (date to be announced).

At the first CHAP meeting, the CHAP will choose its Chair and Vice Chair and the CPSC staff will present information on the history of the DINP project, the provisions of the Federal Hazardous Substances Act, the CPSC's Chronic Hazard Guidelines, the CPSC staff's toxicity review and risk assessment for DINP, and other work in progress on DINP. During the remainder of the meeting, the CHAP will consider how it will proceed and begin its deliberations.

Dated: April 20, 2000.

Sayde E. Dunn,
Secretary, Consumer Product Safety Commission.

DEPARTMENT OF ENERGY

[Docket No. EA-179-A]

Application To Export Electric Energy; California Power Exchange Corporation

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: California Power Exchange Corporation (CaLPX) has applied for renewal of its authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests or requests to intervene must be submitted on or before May 26, 2000.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Power Im/Ex (FE-27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585-0350 (FAX 202-287-5736).

FOR FURTHER INFORMATION CONTACT: Rosalind Carter (Program Office) 202-586-7983 or Michael Skinker (Program Attorney) 202-586-2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On May 29, 1998, the Office of Fossil Energy (FE) of the Department of Energy (DOE) authorized CaLPX to transmit electric energy from the United States to Mexico using the international electric transmission facilities of San Diego Gas and Electric Company. That two-year authorization will expire on May 29, 2000. On March 29, 2000, CaLPX filed an application with FE for renewal of

this export authority and requested that the order be issued for a 5-year term.

DOE notes that the circumstances described in this application are virtually identical to those for which export authority had previously been granted in FE Order EA-179. Consequently, DOE believes that it has adequately satisfied its responsibilities under the National Environmental Policy Act of 1969 through the documentation of a categorical exclusion in the FE Docket EA-179 proceeding.

Procedural Matters

Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the date listed above.

Comments on the CaLPX application to export electric energy to Mexico should be clearly marked with Docket #EA-179-A. Additional copies are to be filed directly with Scott Rasmussen, General Counsel, California Power Exchange Corp., 200 South Robles Avenue, Suite 400, Pasadena, CA 91101 and Edwin F. Feo, Esq., Milbank, Tweed, Hadley & McCloy LLP, 601 South Figueroa, Suite 3000, Los Angeles, CA 90017.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy Home Page at <http://www.fe.doe.gov>. Upon reaching the Fossil Energy Home page, select "Electricity", then "Pending Proceedings" from the options menus.

Issued in Washington, DC, on April 20, 2000.

Anthony J. Como,

*Deputy Director, Electric Power Regulation,
Office of Coal & Power Im/Ex, Office of Coal
& Power Systems, Office of Fossil Energy.*
