

## State of Oregon Driver Safety Belt Survey

Survey Date: \_\_\_\_\_

Time: \_\_\_\_\_

Survey Location: \_\_\_\_\_

Officer: \_\_\_\_\_

Agency: \_\_\_\_\_

This survey applies only to the drivers of IN and Out-Of-State licensed passenger vehicles, including cars, vans, pickup trucks and sport utility vehicles (SUVs). Observe, from the side of the roadway, whether a driver is shoulder belted and check the appropriate block below (yes or no).

Observe 100 vehicles per location and count each vehicle passing your observation point. If you cannot tell if a driver is buckled, count that driver as UNBUCKLED. Subsequent surveys should be conducted in the same location and at a similar time of day and day of week in order to obtain the most valid comparison of results.

Yes	No	Yes	No	Yes	No	Yes	No
