

Meet the biggest thing to hit recycling.

The HI-5 program has big news on big bottles – two liters big, to be precise. Starting December 1st, two-liter soda bottles can be redeemed just like all the other containers bearing the HI-5 label. In fact, for three months, redemption centers will also accept unlabeled two-liter bottles.* For now, all two-liter bottles will be counted – not weighed.

**Go ahead, Hawai‘i:
Give yourself a
bigger, better HI-5.**

For more recycling tips and a complete list of redemption centers, visit hi5deposit.com or call the Department of Health at (808) 586-4226.

*At the store, consumers will only be charged the six cents for labeled containers.
