Subject: an excellent (and long overdue) revision

On behalf of Americans for Tax Reform, I would like to express our deep and sincere enthusiasm for the revision of OMB Circular A-76. A-76 will be an even better policy once its new incarnation is fully implemented -- and ATR looks forward to that day.

It's only fair that all of the federal government's commercial activities -- ESPECIALLY THE POSTAL SERVICE -- be open to competition and, where appropriate, outsourcing. It will prove to be a bargain for taxpayers, an excellent opportunity for entrepreneurs, and an effective restraint on the waste, fraud, and abuse that are far too common in government agencies -- ESPECIALLY THE POSTAL SERVICE.
