FY 2006 Budget Estimates to Congress

Legislative Proposals to be transmitted separately by the Office of Management and Budget, explanations of proposed legislation follow:

Analog Spectrum Lease Fee (Legislative proposal, subject to PAYGO):

Explanation of proposed legislation:

To facilitate clearing of the analog television broadcast spectrum and provide taxpayers some compensation for use of this scarce resource, the Administration will propose legislation authorizing the Federal Communications Commission (FCC) to establish an annual \$500 million lease fee on the use of analog spectrum by commercial broadcasters as of 2007. The FCC will promulgate a rulemaking to apportion the aggregate fee amount among commercial broadcasters. Upon return of its analog spectrum license to the FCC, an individual broadcaster will be exempt from the fee.

Spectrum Auction Authority (legislative proposal subject to PAYGO):

Explanation of proposed legislation:

The Administration will propose legislation to extend indefinitely the FCC's auction authority, which expires in 2007 under current law.

Spectrum License User Fee (Legislative proposal, subject to PAYGO):

Explanation of proposed legislation:

To continue to promote efficient spectrum use, the Administration will propose legislation providing the FCC with new authority to use other economic mechanisms, such as fees, as a spectrum management tool. The FCC would be authorized to set user fees on unauctioned spectrum licenses based on public-interest and spectrum-management principles. Fees would be phased in over time as part of an ongoing rulemaking process to determine the appropriate application of and level for fees. Fee collections are estimated to begin in 2006.
