

***2008-2011 STATEWIDE
TRANSPORTATION
IMPROVEMENT PROGRAM***

AMENDED

As of September 25, 2008

FINAL
2008-2011 STIP

*Available on the Internet to download and/or search at
www.oregon.gov/ODOT/HWY/STIP/*

■ OREGON DEPARTMENT OF TRANSPORTATION ■

KEY TO PROJECT LISTING

Shows the name and location of each project

Name: I-205: WILLAMETTE R (GEO ABERNETHY) BRIDGE #09403
Hwy/St: EAST PORTLAND

Shows estimated amount of funds, the federal share (as applicable), the year the funds are committed, and the type of funds committed to the project

Identifies funds committed from the previous STIP

Unique identifier for each project

Key: 14799

Total Cost:	Year:	1st Fund:	Share:	2nd Fund:	Share:	3rd Fund:	Share:	Prior Yr:	Share:
Planning:	\$0								
Design:	\$707,000	2008	HBRR	\$634,391					
Land Purchase:	\$0								
Utility Reloc:	\$0								
Construction:	\$13,491,000	2010	HBRR	\$12,105,474					
Other:	\$0								
Total:	\$14,198,000								

Applicant: ODOT

Status: Const. scheduled to begin in 2010

Work type: Bridge

Shows the year project is set to go to contract

Shows the primary type of work

Identifies who is sponsoring the project or who requested the project

Describes the work being done on the project

Identifies which MPO boundary the project falls within (or Non-MPO for those outside).

There are six primary sections in the STIP, one for each of the five ODOT regions and one for Statewide programs. The five regional sections are further sorted by **County**.

Projects are then sorted by **Route** and then by **Work Type**.

The following information appears for each project in this document:

- The first element listed is the **Project Name** with the **Highway Name** directly below.
- Under the Highway name is the **Route**, a more common name for a specific section of roadway.
- Below the route are the beginning and ending **Milepoints**. These identify where the project starts and ends.
- Below the milepoints is the **ACT** (Area Commission on Transportation).
- Below the ACT is the **MPO**. This indicates, when applicable, which Metropolitan Planning Organization boundary the project falls within. If the project is outside an MPO boundary, "Non-MPO" is listed.
- Below the MPO is a **Description** of the main project work taking place.
- To the right of the Project Name is the **Key** number, a unique numeric identifier that stays with the project for its entire life.
- Below that is the *Funding Information Section*. The first line is **Planning** activities relating to studies, refinement plans, location EIS, MPO planning, State Planning & Research projects. The next four lines are **Design, Land Purchase, Utility Relocation** and **Construction**. These are the phases of a construction project. The **Other** line is for activities such as Transit (planning, operations, and purchase) and other non-construction projects. The **Total Cost** and **Year** columns identify how much total funding is programmed for each phase and the year it was started (if prior to the 2008-2011 STIP period) or the year it is planned to begin. Each column to the right of these phases identifies the type of funding programmed and the amount of that fund. *Required matching funds are not included in the columns located to the right of the Total Cost column.*
- Directly below the funding information is the **Applicant**. This identifies who is sponsoring the project.
- To the right of the applicant field is the **Status** of the project. This indicates what is happening with the project and in what year.
- Below the status line is the **Work Type**. This identifies the primary type of work associated with each project. The STIP work type order is Modernization first, then Safety, Pavement Preservation, Bridge, and Operations, followed by all other work types.
