

CapTel™ Captioned Telephone

The CapTel is a telephone that allows people who have difficulty understanding what is being said over the telephone to receive live captions of their telephone conversations.

The CapTel with a USB port allows people to connect the CapTel phone to a computer to view captions on the computer monitor. The size, color and font style can be modified for easier reading.

Both phones feature built-in loud ringers.

TTY

Telecommunication device with keyboard and visual display for people who are deaf, hard of hearing or speech impaired. Several models available with various features.

Dialogue Voice Carry Over (VCO) Telephone

VCO telephone has a built-in loud ringer and does not contain a keyboard – for those who prefer to read and not type.

Uniphone 1140 TTY Amplified Telephone

Telephone and TTY unit in one for deaf and hard of hearing VCO users and speech impaired Hearing Carry Over (HCO) users.

XL-40/XL-50 Amplified Telephone

Amplified telephone with built-in loud ringer that increases incoming volume up to 43 decibels (XL 40 - moderate to severe) or 60 decibels (XL 50 - severe or greater).

TeliTalk™ Electrolarynx Telephone

The TeliTalk is a telephone which allows an individual that has had a Laryngectomy to speak on the phone using a built in artificial larynx. Speakerphone and head set options are available for hands-free use.

XL-25s Amplified Phone

Increases outgoing speech up to 18 decibels for people with weak speech.

JV35B Amplified Phone with Braille Characters

Large button amplified telephone with built-in loud ringer and Braille letters on number keys. Talk back feature repeats numbers dialed to verify dialing accuracy. **Also available with white buttons and black numbers.**

Superprint Pro80 TTY with Large Visual Display

TTY with built-in large screen for easier to read letters. Has standard size paper print-out.

RC200™ Remote Control Speakerphone

A hands free Remote Controlled speakerphone for people with mobility impairments. It is operated by using a wide variety of switches, depending on ability.
