

Date: August 2, 2007

Time: 10 am - 12:30 pm

Meeting Title: State Epidemiological Outcomes Workgroup

Attendees: *Salem:* Roy Gabriel, Jessica van Diepen, Dagan Wright, Mike Wilson, Joe Koziol, Jay Grussing, Matthew Tschabold, Geralyn Brennan, Michael Ponder, *PSOB:* Joyce Grant-Worley, Stacey Schubert *Via Phone:* CA Baskerville, Gary smith

Next meeting: September 6, 10:00-1:00
500 Summer St. Salem
Conference Room HSB 352

Topic	Key Discussion Points	Action/Task/ Decision Log	Responsible Persons	Due Date
Cost of Incarceration and Crime	1.) Mike Wilson, an economist with the Criminal Justice Commission, presented findings from his work on the Oregon Prison Economics <i>Powerpoint presentation is attached</i>			
New SEOW members	1.) Gary Smith was introduced. He is replacing Stephanie Soares Pump as representative for the Governor's Council on Alcohol and Drug Abuse Programs			
Data Gap Subcommittee update	One of the SEOW deliverables that needs to be completed in year 2 is development of a plan to increase data capacity for a gap in consumption or consequence data. SEOW's proposal is to increase OHT participation so all counties have data and the data that are reported represent most of the communities within each county (for grades 8 and 11) The following people should be included in communications: Roy Gabriel, Tony Biglan, Caroline Cruz, Jessica Van Diepen, Dagan Wright, Matthew Tschabold, Gary Smith, Renee Boyd, Sarah Ramowski, Kirsten Aird, Kristen Rohde, Stacey Schubert, Ann Uhler, Mel Kohn, Robin Marshall, Gary English, Scott Hall	Task. Set up meeting for subcommittee. Task. Talk to Kate Kissick about participation rates, information about last year's OHT governance subcommittee (history and challenges), suggestions for subcommittee membership	Geralyn Geralyn	

Topic	Key Discussion Points	Action/Task/ Decision Log	Responsible Persons	Due Date
	1.) Geralyn submitted the proposed topic and PIRE provided guidelines for data gap analysis and plans on July 27. 2.) It was noted that any plans for improving participation must include local partners such as the LADPCs and ESDs			
County profile data	1.) Reviewed revisions to the county profile data-formatting of graphs and reporting results for risk / protective factors and smokeless tobacco use 2.) Discussed how to report OHT data consistently. In the past counties that didn't participate were provided regional or SDA data. We discussed how to go about reporting annual results in the profiles. 3.) Two additions were proposed: <ul style="list-style-type: none"> • Data for the percent of youth who report gambling activity in the past year • Data for the percent of youth who report they attempted suicide. 	Decision. Based on the discussion, county profiles will report OHT data if there were schools that participated. If there was no participation, there will be a note that no data is available for that year. If there was participation, but the numbers were low, regional or SDA data will be used and it will be noted in the technical notes. Decision. Add the gambling and suicide measures to the county profiles	Geralyn	
Handouts	Oregon Prison Economics Clackamas County Oregon Healthy Teen Data
