

Waste Management LampTracker

Rick Cochrane, Senior Business Director

CFL Recycling Panel

2008 ENERGY STAR Lighting Partner Meeting

Waste Management LampTracker

Waste Management, the nation's largest waste company and largest recycler, acquired the LampTracker division and Roseville, MN lamp recycling facility of Mercury Waste Solutions in May 2007.

WM LampTracker offers mail-back recycling solutions for lamps, lighting ballasts, batteries, mercury devices, and e-scrap to Waste Management's commercial customers.

Leading LampTracker Features

Mercury VaporLok

WM LampTracker containers are the safest on the market. Each container includes

- 1) Inner lamp box
- 2) Mercury VaporLok foil bag
- 3) Outer shipping box.

Tracker

WM LampTracker provides its commercial customers with complete, real-time, on-line access to all ordering and recycling records for all their facilities nationwide.

Commercial CFL Recycling

WM LampTracker
offers CFL mail-back
programs for its
commercial customers.

The **WM LampTracker**
Compact holds 100
CFLs

Wal-Mart Kiosk

WM LampTracker developed a kiosk and provided LampTracker containers for the Wal-Mart Stores, Inc. household fluorescent lamp recycling event at 350 stores in 5 states in June 2007.

Waste Management CFL Recycling in 2008

Waste Management is exploring CFL recycling options for it's 22 million household customers and will offer a solution in 2008.

Waste Management is interested in developing partnerships with lamp manufacturers, retailers, utilities and government agencies to find CFL market opportunities that are commercially viable for all parties involved.
