

Legal Notice of Decision for the Dry Burton Thin Timber Sale Gifford Pinchot National Forest, Cowlitz Valley Ranger District

Kristie Miller, District Ranger for the Cowlitz Valley Ranger District, made the decision to implement the Dry Burton Thin Timber Sale, selecting Alternative 4.1 on July 31, 2006. With this current decision, the District Ranger is rescinding the July 31, 2006 decision to select Alternative 4.1, and selecting Alternative 4, the original Proposed Action. This alternative was selected from a range of alternatives analyzed in the Environmental Assessment (EA) prepared for the proposal. Alternative 4 is identical to Alternative 4.1, except that Units 5, 6 and 8 would contain a mixture of ground-based and helicopter yarding systems. Units 4 and 17 would still be entirely helicopter harvested. The change was made because market conditions have reduced the value of the sale, resulting in a negative cost benefit ratio and net cost to the government. Alternative 4 was analyzed in detail in the EA and in supporting documentation. The selected alternative will commercially thin and harvest approximately 4.2 million board feet of timber from 212 acres of the Cispus Valley Adaptive Management Area, and Upper Cowlitz River Watershed. The purposes of the project are to increase the health and vigor of managed stands while promoting the structural elements of late successional forest land, to provide forest products consistent with the Northwest Forest Plan, and to enhance riparian reserves. The project is located approximately 6 miles south of Packwood in Sections 15, 21, 22, 27 and 28, T 12 N, R 9 E, Willamette Meridian, Lewis County, Washington.
