## **VA Hudson Valley Health Care System is Recognized for Use of Information Technology**

VA Hudson Valley Healthcare System, part of the *VA Northeast Region 4 Healthcare Network in Bronx, NY*, is once again ahead of the curve in information technology. "Hospitals & Health Networks" magazine has recognized its list of the 100 Most Wired Hospitals and Health Systems, and *VA Northeast Region 4 Healthcare Network in Bronx, NY*, has been recognized as "Most Wired." In this annual survey, the magazine asks hospitals to report on their use of information technology in five key areas: business processes, customer service, safety and quality, workforce, and public health and safety. After a review of the survey responses by the Most Wired team, the 100 organizations that score highest on the survey are determined to be "Most Wired." In 2007, the survey's ninth year, the *VA Northeast Region 4 Healthcare Network* beat out 568 hospitals and health systems, representing 1,284 hospitals, to make the top 100.
