

Dear Power Supply Manufacturer or Other Interested Party:

In mid-March, EPA sent correspondence informing you of the release of the Preliminary Draft 1 Eligibility Criteria for single voltage external ac-dc power supplies and providing a standardized test report to voluntarily submit power supply test data. (For your reference, copies of the letter, draft specification, test procedure, and test report are attached.)

EPA strongly encourages comments and input on the draft specification from industry stakeholders. As such, you are reminded to:

- 1) Provide written comments on the draft specification.
- 2) To the extent it is feasible for your evaluation to include product testing, please submit test data for any power supplies that you have tested, using the attached test report.

Please send comments and test data to Brooke Taylor, ICF Consulting, at btaylor@icfconsulting.com, by **Thursday, April 15, 2004**. Your prompt attention to this matter is appreciated.

Thank you very much.

Regards,

Andrew Fanara
