Docket # 000-1598

FDA

5630 Fishers Lane, Rm 1061
 Rockville, MD 20852

To whom it may concern.

I object to your "Voluntary Labeling"
 proposal for genetically modified
 foods.

ANY and ALL GENETICALLY
 ENGINEERED FOODS should be

so labelled, clearly and

unambiguously. Labeling

must be MANDATORY, required

000-1598 By law to clearly indicate ^{C208}

and reflect any and all
genetic modification.

I join 86% of the population
who feels GE foods should be
labelled. GE foods are not
the same as traditionally, naturally
produced foods. We the public
should have the right to choose.
What is the industry trying
to hide by not labelling, not
testing?

Do your job, FDA, require
labelling of all GE foods.

Thank you

Sally J. Arthur
