Re: DOCKET NUMBER 98P-0151/CP1

To Whom It May Concern:

I request that the Food and Drug Administration grant petition 98P-0151/CP1 to prohibit the slaughter of downed animals.

Please take into consideration the following information when you are making your decision:

1. Downed animals comprise a very small percentage of animals slaughtered, and prohibiting their marketing will cause no undue economic hardship;
2. Industry experts have estimated that 90% percent of downed animals can be prevented with better care and handling. Removing the market for downed animals will provide and incentive to industry to prevent downed animals in the first place;
3. It is impossible to move downed animals humanely, and they are typically pushed with tractors or dragged with chains--inhumane processes which cause injuries ranging from bruises and abrasions, to broken bones and torn ligaments;
4. In addition to posing an increased risk for bacterial contamination, there is evidence that some downed animals may be afflicted with a form of BSA (Bovine Spongiform Encephalopathy or "Mad Cow Disease"), a disease which has been linked to a fatal human illness (CJD or Creutzfeldt-Jakob Disease);

Board of Directors

President and CEO: Anne Mats

Vice President: John J. Partenhelmer

Secretary/Treasurer: Amy K. Metzner

Board Member: Delightee C. Flores

Board Member: Jacqueline K. King

98P-0151

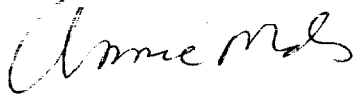

Please Be Kind to Animals!

C 3491

5. Animals who are too sick or injured even to stand should not be allowed to enter the human food chain.

Thank you very much for your time.

Sincerely,

A handwritten signature in black ink that reads "Annie Mals". The signature is written in a cursive, flowing style.
